50 CENTS PER MONTH

AMERICAN SCHOONER SUNK BY AUSTRIAN U-BOAT

FINAL STEP IN BREAK IS TAKEN AS KAISER'S ENVOY SAILS

Bernstorff and Party Depart
On Frederick VIII For
Native Land

COUNT DECLINES TO TALK TO REPORTERS

Ousted Ambassador Poses
For Movie Cameras As He
Arrives At Pier

NEW YORK, Feb. 14.—Count
Von Bernstorff and his party of
diplomats sailed this afternoon
at 4:15 o'clock on the Frederick
VIII.

NEW YORK, Feb. 14.—Under heavy
guard of United States secret service
men, 150 deputies of the customs
house neutrality squad and Hoboken
police, Count Von Bernstorff, depart-
ing German ambassador and his suite
arrived in Hoboken early today from
Washington.

The party was immediately escorted
to the pier of the liner Frederick VIII
and went aboard the ship. At 2
o'clock this afternoon the liner will
head down the bay and the last formal
step in the break of diplomatic rela-
tions between this country and Ger-
many will be complete.

The German envoy and the German
consuls from various parts of the
country, together with other Teutonic
diplomatic representatives will be en
route to Berlin.

Von Bernstorff was accompanied by
175 members of the German diplomatic
corps in the United States. Occup-
ying the Pullman coach Manhattan
were the Count, Mme. Von Bernstorff
and Prince and Princess Von Hatz-
feldt. Their train pulled in the sta-
tion at Newark at 7 o'clock.

Arrive At Hoboken
Switched from the Pennsylvania
tracks to the Jersey Central, the train
of three cars and a baggage car was
taken to Weehawken. There the train
was switched to a freight track and
taken down the shore of the Hudson
river to Hoboken, where it stopped at
7:30 at Thirtieth and Hudson streets
three blocks from the pier.

Few in Hoboken knew the departing
ambassador and his suite had arrived.
Swarming up to the train reporters
and photographers waited while
Prince Hatzfeldt emerged from the
car and was closely followed by Count
Von Bernstorff. The cameras began
to click.

Reporters clamored for an inter-
view but the ambassador, still smil-
ing, waved them away.

Count Is Silent
"I have nothing to say," he said.
There was no disorder of any kind
in Hoboken. The transfer of the
party from train to steamship was
done quickly.

Arriving at the pier, the party
passed through the gate of a stockade
that had been built around the pier
150 feet outside the landing. No one
was allowed to pass this barrier ex-
cept members of the diplomatic corps
and persons vouched for by Bern-
storff.

Precautions on land were no greater
than those in the Hudson river. Col-
lector of the Port Malone spent the
night on board the Frederick VIII.

A police boat kept up a constant
patrol of the nearby waters circling
about the ship. A dozen policemen
were on the boat.
Chief Flynn of the U. S. secret ser-
vice and a number of his aides were
with the Bernstorff party. They ac-
companied the party aboard ship and
were to remain there until sailing
time.

More precautions were to be taken
as the ship passed down the river and
out into the bay. The police boat pa-
trol was to escort the liner. This
craft, a huge tug, mounts a rapid fire
gun in the bow. There was a possibil-
ity also, that a U. S. destroyer would
accompany the liner to the Narrows.

AUSTRIAN BREAK NEARS, CAPITAL HOLDS

WASHINGTON, Feb. 14.—The fact
that Baroness Zwiendick, wife of the
Austrian charge d'affaires, is sailing
home today with the Bernstorff party,
appeared significant in view of the
possibility of a break in relations be-
tween the United States and Austria.
It appears likely that a break cannot
be avoided.

Ambassador Bernstorff's message to
the capitol before quitting, was an ex-
pression of hope that war between his
country and the United States would
be averted.

HOLD MYSTERY MAN WHO RUSHES GUARD LINE AT SHIP SIDE

HOBOKEN, N. J., Feb. 14.—A
man who claimed to be a "relative
of Prince William of Germany,"
attempted to rush his way through
Count Von Bernstorff's guard as the
German embassy staff was board-
ing the Frederick VIII. He
waved a letter which, he said, he
had been commissioned to deliver
to Bernstorff. He had penetrated
beyond the guards before he was
stopped and taken to the police sta-
tion.

The man, who said his name was
Alfred Hopkins, talked incoherently
and refused to say who gave him
the letter. At one time he said he
had a letter of his own for the
Count. Later he said he merely
was a messenger. Hopkins said he
lived at 114 East 123rd street with
his mother and half brother and is
19 years old. He was held for ex-
amination but was not formally un-
der arrest.

When the newspaper photograph-
ers tried to snap Hopkins as he was
being hustled away, he stopped and
posed for them.

The letter was delivered to Count
Von Bernstorff.

Japanese Croesus Says His Country Would Aid Yankees

U. S. War With Germans Would Be Profitable, Says Nipponese Nabob

DALLAS, Tex., Feb. 14.—In case
America and Germany go to war,
Japan will use all her naval and
military power to help America,
today declared Y. Nagashima, the
greatest Japanese financier. He
said:
"We may be foolish people but
we are not so foolish as to think
that the friendship of Germany is
more valuable to us as a nation
than the friendship of America."
"I believe that America would be
wise to go to war with Germany.
We found it profitable."

STYLE SHOW MODELS ARE INTRODUCED BY AESTHETIC DANCES

ST. LOUIS, Feb. 14.—What prob-
ably is the largest fashion show
ever held in the middle west, opened
at Moolah Temple here today. New
spring and summer models in all their
coloring and styles were paraded and
"acted" before buyers and ultimate
consumers.

The presentation was better than
the average style show. Scenes in-
terpretative of Spring, Sport, Youth
and Evening brought out the models.
Each group was introduced with an
aesthetic interpretative dance and
music.

COMMEMORATE BLOWING UP BATTLESHIP MAINE

WASHINGTON, Feb. 14.—Memories
of the blowing up of the battleship
Maine in Havana Harbor and the
wave of patriotic resentment that
swept the United States from Florida
to the Pacific, will be recalled here
tonight, when the Naval and Military
Order of the Spanish War, assemblies
at the Army and Navy Club at its
annual dinner, commemorating the
anniversary of the event. The ban-
quet will be somewhat lacking in its
usual brilliancy owing to the recent
death of Admiral Dewey.

PETROLEUM DINNER IS GIVEN AT VENTURA

VENTURA, Feb. 14.—A petroleum
banquet was given here by A. L. Hol-
son on the land where the General
Petroleum Company located its first
well, for which privilege it paid
\$35,000.

Barbecued steaks, lamb and baked
hens' heads were included on the
menu.

A miniature oil rig occupied the
center of the long table, at which sat
the chief guests and it was kept pump-
ing throughout the dinner. The feast
was held under huge oak trees at the
oil camp. A patriotic turn was given
the banquet when Beatrice Kellenber-
ger sweetly sang "The Star Spangled
Banner."

MAY SUTTON ENTERED

LONG BEACH, Feb. 14.—Marking
her first appearance in public for some
time, Mrs. May Sutton Bunday will
participate in a round robin tennis
tournament at the Hotel Virginia
courts February 22, in which some of
the most celebrated net stars of the
country will contest.

SCANDINAVIANS SEND TEUTONS PROTEST ON DEATH ZONE

Rights of Belligerents to Ob-
struct Peaceful Ship-
ping Denied

NEW YORK, Feb. 14.—The
French liner Espagne, carrying
200 passengers, including seventy
Americans, today sailed for Bor-
deaux. Most of the Americans are
volunteer ambulance workers.

COPENHAGEN, Feb. 14.—The Dan-
ish, Norwegian and Swedish govern-
ments have forwarded the Central
powers identic notes protesting against
"the barrage of certain sea zones," ac-
cording to official information today.
The note recalls on previous occa-
sions there have been formal com-
plaints by the signatory governments
stating serious injury to the rights of
neutrals.

The Scandinavian note in con-
clusion, declares the Central powers
measures "all the more contrary to in-
ternational law, if as indicated, they
are to be applied indiscriminately,
even against ships voyaging between
neutral ports."

The Scandinavian note emphasizes
that on the present occasion the sig-
natory governments are all the more
compelled to adhere to their previous
position "inasmuch as the obstacles to
neutral navigation are now on a con-
siderably larger scale of gravity."
"This government's anxiety," the
note continued, "has been increased
because the danger zones are to be
guarded exclusively by submarines
whose activities endanger neutral sub-
jects, as already demonstrated."

Denial is registered of the right of
belligerents to obstruct peaceful nav-
igation in zones situated at such a dis-
tance from the enemy coasts. These
coasts, it is held, are subject only to
a legitimate blockade.
"Relying on the considerations set
forth above," the note closes, "the
governments formally protest against
arrangements adopted by the Central
powers and the loss of life and mate-
rial damage which will ensue."

S. F. MAN SURVIVOR FROM SAXONIA

LONDON, Feb. 14.—John Steffini of
2328 Fibert street, San Francisco,
an American citizen, was officially re-
ported as one of the Saxonia survivors
today.

CARPATIA ARRIVES AT NEW YORK TODAY

NEW YORK, Feb. 14.—The Cunard
liner Carpatia, carrying no passen-
gers, arrived in New York Bay early
today, unannounced. She left England
January 26.

CARMANIA ARRIVES AT LIVERPOOL SAFELY

NEW YORK, Feb. 14.—The Carman-
ia, of the Cunard line, has arrived
safely in Liverpool, the local offices
announced today. She carried mun-
itions and foodstuffs and left New
York February 4.

U. S. ASSEMBLES CANNON FOR AUXILIARIES

WASHINGTON, Feb. 14.—Naval
guns of various sizes now being as-
sembled at the New York Navy Yard,
are to be used on auxiliary and scout
cruisers and on any "vessels of that
type which may be converted to war's
uses, in the event of necessity, it was
announced at the Navy Department to-
day.

The department explained the as-
sembling of the naval guns is "purely
a precautionary measure."
It was insisted the guns are not for
use on American merchant ships as
defensive armament.

BRITISH STEAMER SUNK

LONDON, Feb. 14.—The British
steamer Lamport has been sunk. All
of the crew except four were safely
landed, it was announced today.

ADRIATIC DOCKS SAFELY AT LIVERPOOL

NEW YORK, Feb. 14.—The White
Star liner Adriatic, which carried
forty-four passengers, including one
American, arrived in Liverpool Mon-
day morning with "all well," says a
cable to the local offices today.

GET RUMOR OF RAIDER-ALLY CLASH

BUENOS AIRES, Feb. 14.—Wireless
messages received here today from
Bernardo de Noronha confirm reports
of an engagement between a German
raider and British cruisers, but shed
no light on the outcome.

COOPER ENTERS ASCOT

LOS ANGELES, Feb. 14.—Earl
Cooper is in Los Angeles today, al-
ready signed up to drive in the George
Washington sweepstakes to be run at
Ascot Park February 25.

CUBA PRESIDENT ISSUES TROOP CALL TO PUT DOWN REBELS

Island Mutiny Serious; Hav-
ana Is Under Martial Law;
Houses Combed

WASHINGTON, Feb. 14.—The
American minister to Cuba today
issued a warning to Cuba and the
insurrectionists against the "gov-
ernment's unestablished though
legal, constitutional methods."

HAVANA, Feb. 14.—Seriousness of
the uprising, brought about through
the bi-election in Santa Clara prov-
ince, was apparent today when vari-
ous well authenticated reports placed
the number of rebels from 1000 to
4000. President Menocal issued for-
mal call for three-month enlistments
in the army, seeking forces with
which to subdue the malcontents.

Havana itself is practically under
martial law, a house-to-house search
being in progress to seize arms and
arrest mutineers. Telephone and
telegraph lines have been taken over.
President Menocal's yacht, hastily re-
fitted with guns, left the harbor to-
day. Meanwhile, it was announced
that the United States government
had acquiesced in Cuba's request for
the purchase from America of 10,000
rifles and 5,000,000 rounds of ammu-
nition.

The bi-elections in Santa Clara
province will practically decide the
presidential choice, the previous bal-
loting in November having been in-
conclusive. They are scheduled for
today—the government officials insist-
ed they would be held as planned, de-
spite all efforts of the mutineers to
postpone them.

Government troops have had num-
erous clashes with the rebels in various
provinces. The most important of
these was in Santa Clara province
where two of 150 or more rebels were
shot down, the mutineers put to flight
and a quantity of supplies, munitions
and horses captured.

A government statement predicted a
"peaceful election in Santa Clara."
"The general situation throughout
the island continues the same," the
statement asserted. "No mill has
ceased work and in no case have the
officials been advised that the malcon-
tents have done damage to property.
Whenever the opposing bands have
made a stand they have been put to
flight and scattered by the rurales."
There is complete quiet in Pinar del
Rio, Havana and Matanzas.

BUFFALO BILL'S SHOW TO BE PERPETUATED

DENVER, Feb. 14.—Although the
dashing figure of Buffalo Bill will
never again dash into the ring, "Buff-
alo Bill's Wild West Show" will live.
Incorporation papers of the company
have been filed with the secretary
of state of Wyoming by Mrs. W. F.
Cody, the Colonel's widow, Mrs. Irma
Cody Garlow and Johnny Baker. It
was the last wish of the Colonel that
the famous Buffalo Bill Wild West
show be kept alive.

600 LUMBERMEN OF WEST IN CONCLAVE

SPOKANE, Wash., Feb. 14.—Six
hundred lumbermen from Washing-
ton, Idaho, Montana, California, Utah,
Oregon, Nevada, Colorado, Wyoming
and Arizona gathered here today for
the annual convention of the Western
Retail Lumbermen's Association.
The proceedings will last three
days. Matters of importance to the
world's lumber market are to be dis-
cussed.

POMONAN SEEKS TO BE SO. CAL. CABBAGE KING

POMONA, Feb. 14.—With nearly
500,000 cabbage plants growing and
with the outlook good because of the
freeze which has killed a great deal
of garden truck in Florida and other
southern states, and with the whole-
sale price of cabbage now ranging
from \$70 to \$120 per ton, L. C. John-
son, who owns the Palms ranch on
South Garey avenue, expects to be the
cabbage king of Southern California if
his crop pans out well this year.
About thirty acres of plants are
heading out on Johnson's land and he
hopes to catch a market ranging from
\$25 to \$50 per ton. His cabbage that
was set in September is backward and
will not do well, but the December set-
ting is coming along nicely.
Prospects are good even if the mar-
ket returns to normal soon, because
an average acre of plants will yield
about six tons of cabbage and the
usual price is from \$15 to \$20 per ton.

German Influences at Work in Mexico and Cuba, Is Hinted

(BY CARL D. GROAT, United Press Staff Correspondent)

EL PASO, Feb. 14.—Confirma-
tion today was received here of the
kidnapping of three Mormon ranch-
ers and seven Mexican ranch hands
from a ranch southwest of
Hachita, New Mexico. Army offi-
cials are investigating with a
view to learning the fate of the
captured people, who were taken
by armed Mexicans, believed to
have been followers of Villa.
Mules, stores and ranch stock
also were taken by the raiders.

WASHINGTON, Feb. 14.—German
influence was seen today in Cuban
and Mexican troubles.

As officials viewed conditions to
the south of this nation, it appeared
more than likely that Germany was
stirring up trouble there to keep the
United States engaged in nearer home
affairs so she would pay less attention
to German acts on the ocean.

Evident German pressure on Gen-
eral Carranza has already had the ef-
fect of forcing British consideration
of landing troops at Tampico to pro-
tect the oil wells supplying England's
big navy, according to intimations in
diplomatic quarters.

As for Cuba, the situation may be-
come such that American inter-
ference will become necessary, though as
the revolt there stands now, interven-
tion is not yet required.

Border activities report the killing
of three persons. It is now that the
War Department is keeping an extra
careful watch on the boundary for
fear that trouble involving the United
States will again break out.

Incident Recalled
In connection with the Mexican
problem it was recalled today that a
German embassy agent was in close
and almost constant touch with the
Mexican-American Peace Commission
when it sat at Atlantic City.

It is known too that some of Gen-
eral Carranza's followers have felt that
German and Japanese support was
with the constitutional government.
While cabinet members have expressed
doubt that Great Britain will land
troops to protect British oil interests
at Tampico, it is certain that England

will not look idly on, if Carranza car-
ries out any plan of stopping her
rich oil supply from going forward
from Tampico.

In these circumstances it will be up
to the United States to take a hand
or else England will undoubtedly do
the task herself. The possibility of
such foreign interference in the new
world constituted a series of perplex-
ing problems here.

Teuton Hand Seen

There can be no mistaking that gov-
ernment officials here feel that Ger-
many is behind General Carranza's re-
cent anti-ally activity and while they
do not take his embargo suggestions
seriously they do fear for what he
might stir up in favor of Germany and
against both the United States and the
Entente allies.

From Cuba the State Department is
receiving reports of the revolution,
but thus far is keeping them for the
most part under cover, along with dis-
cussion as to policy.

While these big international possi-
bilities shape themselves, the govern-
ment has under consideration still, the
question of Germany's detention of
the Yarrowdale prisoners, the matter
of arming merchantmen and the ques-
tion of a break with Austria.

The Yarrowdale question loomed
large, but its effect on future relations
with Germany will be charted only
after this government knows full par-
ticulars of American treatment of
Germans in island possessions. This
government wants first to be sure
Germany has no ground for protest.
Detention of prisoners in time of
peace manifestly is a serious affront,
though there is reason to believe
Germany will not persist long in her
position.

Await Word From Elkus

The State Department is anxious to
hear from Abraham Elkus, ambas-
ador to Turkey, as he has not com-
municated since the German break—
perhaps because the Central powers
are interfering.

The armed ship question is likely to
be settled soon; there are no signs
that there is any change of policy to-
ward providing guns directly or indi-
rectly from the navy's supply.

ANAHEIM TO PICO SALT LAKE WAY RIGHT CLEARS

The Salt Lake right of way from
Pico station to Anaheim has been
cleared up and depot grounds secured
at Anaheim. A depot costing in the
neighborhood of \$20,000 will grace the
corner of Atchison and Center.

J. J. Tavis, local commercial agent
for the company, and who has done a
great deal of the work in securing
rights of way for the Salt Lake branch
to Santa Ana, yesterday completed a
deal for the last piece of property
needed for the depot site and right of
way up to Anaheim. The property
was purchased from J. Seeman.

Work in constructing the branch is
now in progress. Grading has been
done and rails laid on two miles of the
route, from Pico station through Whit-
tier. All rights of way troubles in the
Whittier section have been cleared
and construction work will be pushed
as rapidly as possible. There is
nothing to prevent the company's
plans between Pico and Anaheim.

As yet, it is stated, the company has
not fully determined the exact route
it will follow from Anaheim to Santa
Ana. It is understood that there are
a number of very important matters
to be determined before the route can
be decided on.

Orange people are very much inter-
ested in getting the line through that
city and they are up in the air as to
the company's intentions with refer-
ence to touching the city.

U. S. TEMPTING FATE BY ALLOWING VESSELS TO SAIL, BERLIN VIEW

BERLIN, Feb. 14.—The Germans
regard America's permitting "test
ships" to sail for the barred zone as
"tempting fate." The announcement
that America was allowing sailings
caused surprise.

Americans here are being cordially
treated.

DIVER FLEET TO BE SENT INTO U. S. WATERS. IS KAISER'S PROGRAM

Blockade of Yankee Ports As
Result of Teuton Diver
War Embarrasses

PUBLIC WILL DEMAND ACTION, IS BELIEVED

Freight Tie-ups Caused By
Railway Embargoes Are
Becoming Severe

WASHINGTON, Feb. 14—

State Department advices
from Rome today stated that the
American schooner Ly-
man Law had been sunk by
an Austrian submarine in the
Mediterranean. There were
eight American and two Brit-
ish seamen in the crew. Ad-
vices stated that the crew
landed safely. It is not known
whether the schooner was
warned. The submarine set
fire to the vessel with a bomb,
dispatches state.

BERNE, Feb. 14.—Germany is
preparing to send a fleet of sub-
marines into American waters,
and especially around the canal,
to paralyze allied shipments. Ger-
many expects to have the allies at
its mercy in six months, regard-
less of America's decision on war.
The Teutons also are planning
aerial, military and torpedo boat
offensives. Germany has ordered
Ambassador Whitlock in Belgium
to lower the American flag, has
stopped his attempts to commu-
nicate with Washington and is hold-
ing all American relief workers.

WASHINGTON, Feb. 14.—President
Wilson is formulating his first step
to protect Americans in prosecuting
of their "peaceful and legitimate errands
on the high seas."

This probably would, according to
belief of officials who know the Pres-
ident's mind, be a recommendation
that the government actively assist
American ship owners in arming their
merchantmen.

It is believed this step will come
very shortly.

While Secretary Lansing has advised
the President that the government
has the legal right to arm the mer-
chant vessels at once, the belief holds
today that the President will wait
until he addresses Congress as he said
he would do, to obtain necessary
protection for Americans and their
property before he sanctions arming
of merchant ships.

This, it is pointed out, would be in
line with his avowed intention of tak-
ing no premature step that might be
construed by Germany as a belligerent
one and thereby give Germany a
chance to put the responsibility on
the United States.

A virtual blockade of American
ports, resulting from Germany's lat-
est submarine decree, has resulted
in the accumulation of economic em-
barrassments which the President be-
lieves demand some action immedi-
ately by this government.

According to reports he has received,
railroads are holding up all ship-
ments of goods designed for exporta-
tion from eastern ports; grain eleva-
tors in the heart of the country are
closing down as a result of this, and
in spite of increased demurrage rates,
railroad cars are piling up in the big
cities and there lying idle.

They are only the first results of the
"blockade." Administration officials
believe that within a short time other
conditions are bound to rise which will
cause public sentiment throughout the
country to demand strong protective
measures.

MOLLA BJURSTEDT WINS

NEW YORK, Feb. 14.—Winning
from Mrs. C. Parsons 6-1, 6-1, Miss
Molla Bjurstedt, national indoor and
outdoor tennis champion, scored an
easy victory in her first match in the
women's invitation indoor tennis tour-
nament of the Heights Casino, Brook-
lyn.

These shoes were contracted for nearly a year ago, before the big advance took place, which enables us to sell them at our usual popular prices.

REINHAUS DEPARTMENT STORE SANTA ANA

NEW 'OUTLAW LEAGUE' SEEN

BY H. C. HAMILTON (United Press Staff Correspondent) NEW YORK, Feb. 14.—Fear that a brand new "outlaw league" to replace the lost Federal circuit may be the outgrowth of the threatened strike by the Baseball Players' Fraternity, and that it might even involve the placing of David L. Fultz at its head, was expressed today by numerous baseball

WE NOW HAVE THE LARGEST STOCK OF MEN'S SUIT FABRICS Ever shown in Santa Ana. All New Spring Goods.

Order your tailor made suit now while the assortment is complete.

There's such a lot of new weaves and colors that a detailed description is impossible. Beauties, every one of them. In fact, no previous season has brought out such perfection in the tailor's art, such beauty of fabric, color and pattern. Get right after these smart Spring styles. Suits tailored to order at \$25.00 up. LUTZ & CO. 120 West Fourth St.

followers whose sympathies in previous "war" days were with organized baseball.

There are allied with the Fraternity enough high-class ball players, both major and minor, to organize a league which would discount in strength the late lamented child of James A. Gilmore. Also, it has been pointed out, with the preponderance of good baseball players there naturally would be a preponderance of good baseball in such a league should it be formed. And, as fandom is bound to go where it can see the best baseball, organized baseball would have a scrap of some proportions on its hands.

The influence of those players who might enter joyfully the plans for organization of such a circuit probably would be such that many other players would separate themselves from their present employers at the expiration of their contracts and would become allied with any new league that might be formed. It is hardly probable that any contracts would be broken, for Fultz already has said those players who have contracts can best serve the fraternity through allegiance to their clubs.

There would not be nearly so much expense attached to the organization of such a circuit as in the days of the Federal's infancy. There would be few baseball parks to build, for there are now standing the left-over parks from the Gilmore circuit. In addition the players probably would sign for much smaller salaries.

RAY SETS RECORD NEW YORK, Feb. 14.—His time 9 minutes and 11.25 seconds, Jole Ray broke the American two-mile indoor running record at Madison Square Garden. The former record was 9:14.5. The world's outdoor record is 9:09.35.

PLANS BIG SOX TOUR CHICAGO, Feb. 14.—Plans whereby the White Sox are to be taken on a tour of South America as soon as the European war ends are being made by Charles A. Comiskey, president of the club.

MALLISTER BEATS HUNTER NEW YORK, Feb. 14.—S. R. McAllister defeated Francis T. Hunter in the annual national indoor championship tennis tournament here. McAllister, once holder of the Maryland state title, won 3-6, 6-4, 6-4.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up. Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears. Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.—Advertisement.

AMUSEMENTS

At the Princess "A Lass of the Lumberlands" is the story of the lumber trust's greed and the courage of a girl to defy its power.

Those who watch "A Lass of the Lumberlands" as its chapters unfold, will go on eyesight journeys into the very heart of the snow-mantled forests of pine, see the great trees fall to the lumberman's axe, watch the laying down of that curious thing called a corduroy railroad, see the giant logs loaded and hauled to the streamside, there to be floated down to market. They will witness the forming of immense log jams and the blowing up of the key-log with a charge of dynamite exploded under water. And they will hold their breaths to see Helen Holmes, hand on throttle, drive a logging locomotive at express speed over the trail, swaying rails of the corduroy whose only roadbed is the frozen snow.

The chapter today, "A Fight at Camp One," may be seen at the Princess.

"It Pays to Advertise" The story told in "It Pays to Advertise" has to do with a rich young man, who, coerced into a business career, elects to enter it through the medium of a publicity campaign that embraces love, printer's ink, and the soap industry, and his methods and manner of accomplishment are so ingenious as to make almost continual merriment through the three acts in which Messrs. Megrue and Hackett have written their successful play. It will be at the Grand Opera House next Monday evening.

HOW TO CHECK THAT COLD When it is painful to breathe and fever sends chills up and down your back, you are in for a cold. A timely dose of Dr. Bell's Pine Tar Honey will stop the sneezes and sniffles. The pine balsam loosens the phlegm and clears the bronchial tubes, the honey soothes and relieves the sore throat. The antiseptic qualities kill the germ and the congested condition is relieved. Croup, whooping cough and chronic bronchial affections quickly relieved. At all Druggists, 5c.

PERMANENT DEFENSE PLAN IS OUTLINED BY L. A. BUSINESS MEN

LOS ANGELES, Feb. 14.—A plan for permanent preparedness will be outlined at a meeting of business men at the Hotel Alexandria here tonight. The plan will be suggested to other cities of the Pacific coast, in an endeavor to have it adopted as a coast-wide scheme. Under the plan as outlined today, 250,000 men would be organized for the defense of the Pacific coast. In time of peace, it is proposed that these men would be used by the government in reclamation and harbor improvement work, paying them regular wages. A committee of public safety would be organized in Los Angeles to assume control of affairs in an emergency. The plan also contemplates the establishment of a military school. Just how all these results will be obtained hasn't been revealed. A committee of 100 is supposed to be working out the scheme quietly. They may reveal a lot of details tonight.

BIG BARN RAZED BY FIRE IS TO BE REBUILT

San Joaquin Fruit Co. Laying Plans For Rehabilitation Structure

TUSTIN, Feb. 14.—Since the fire which resulted in the loss of the big barn on the San Joaquin Fruit Company's holdings on the San Joaquin ranch last Sunday afternoon, the owners are making arrangements to rebuild and purchase new farm implements and harness necessary for carrying on the business.

Benefit Success The ladies of the Tustin Household Economics Section were much gratified by the success last Thursday afternoon of their benefit entertainment for the Day Nursery, held at the home of Mrs. E. M. Nealley and supported by a good many ladies from Santa Ana.

Besides a delightful program of music and readings by Miss Lillian Breed and Miss Eunice Whipple of the Conservatory of Music, delicious cakes were baked by a special demonstrator before the ladies and afterward served to them with fruit punch.

A distribution of sweet violets throughout the beautiful rooms of the Nealley home scattered their fragrance around and the shades of the violet were used in bows of ribbon decorating the souvenir programs. Each guest contributed a small sum to the Day Nursery and several who were not able to be present also sent a donation and a sum of about twenty-seven dollars was realized.

Y. M. C. A. Activities The Night Hawks were taken to Garden Grove last Saturday by W. S. McDougal, where they played a game with the Westminster boys and lost.

Six boys accompanied by Rev. McDougal went to Los Angeles last Friday to attend the big Boys' Work Conference, which was held at Emmanuel Presbyterian Church. There were 307 boys of high school age who sat down to a banquet in the evening. These boys were from different places throughout Southern California.

Tustin Notes A part of the seventh grade pupils went to Laguna Beach last Saturday morning and had an enjoyable day on the beach.

Rev. M. E. Ladieu took the party down with Miss Gertrude Utt as chaperon. It had been planned for every member of the grade to go, but of course some had other engagements. Those who did go had a very jolly time.

Rev. and Mrs. W. S. McDougal, Mr. and Mrs. A. D. Turner, Mrs. N. G. Walterhouse and Mr. and Mrs. P. H. Ebel attended the Illinois picnic at Long Beach on Monday.

The pulpit of the Advent Christian Church of Tustin will be occupied next Sunday by Rev. Virgil Hunt of Los Angeles next Sunday. His subject will be "The Clash of Nations."

The regular meeting of the Tustin Presbyterian Missionary Society will be held Thursday afternoon with Mrs. T. R. Overton.

Next Friday afternoon the Tustin Parent-Teacher Association will have a Colonial exhibit at the school house for the purpose of raising funds to pay for new playground apparatus. Everyone who has any kind of curios, attractive fancy work, Indian relics, furniture or chinaware are asked to enter them in this exhibit. Cases will be provided for breakables and they will be carefully guarded from injury. Miss Rose Schabacker will give demonstrations of cooking. The exhibit will begin at 2 o'clock, Friday afternoon.

Mrs. Fred Beckman with Mr. and Mrs. H. Romer, now of Hollywood, had a pleasant trip to San Diego last Saturday till Monday.

Mr. and Mrs. William Kirby, who have been living in Tustin for the past two years, left Thursday for their former home near Terre Haute, Ind., where they expect to remain.

Mr. and Mrs. Giles B. Lombard of San Jose are visiting their relatives, Mrs. Emma Colgan and Ross and Horace Shafer, also friends in Orange. They are looking around in this vicinity with a view to locating.

Mrs. Edwin Robinson of Los Angeles is visiting her parents, Mr. and Mrs. T. J. Crawford. The family is enjoying a handsome new car.

Alfred Roth and Miss Brin of Los Angeles, were guests of Mr. and Mrs. C. H. Cooley last Sunday.

MERCEREAU COMPANY GETS CONTRACT FOR NEW IMPERIAL BRIDGE

SACRAMENTO, Feb. 14.—A reinforced concrete bridge will soon be constructed over the New river at Seeley, Imperial county. The state has just entered into a contract with the Mercereau Bridge and Construction Company for the work. This company's bid for the structure was \$13,131-\$3445 under the engineer's estimate. The state will furnish \$6958 worth of material, making the total cost of the bridge \$20,089. Eleven spans will be constructed, each of which will be thirty feet long.

WHERE IS THE MOTHER with a child who is rundown, has pale cheeks or thin blood, who will hesitate to give that child the very thing it needs to start it growing and keep it going? For over forty years the concentrated liquid-food in Scott's Emulsion has been changing thinness to plumpness—changing poor blood to rich blood. There is nothing better for growing children—whether they are weak or well—than Scott's Emulsion, but see that you get the genuine Scott's. Scott & Bowne, Bloomfield, N. J.

Having bought my partner's interest in the Wardrobe, I find it necessary to convert a portion of our large stock into cash.

MAIL RECEPTACLES MUST BE PROVIDED FOR CITY CARRIERS

To facilitate the delivery of mail, this office again asks the public to provide mail receptacles. The postmaster general has repeatedly urged all postmasters, where city delivery is in effect, that patrons provide mail receptacles. It is only going to be a very short time until an order will be issued making it compulsory for patrons of city delivery office to provide these receptacles, under penalty of having their mail placed in the general delivery. An order is already in effect compelling patrons of new territory, asking for city delivery, to provide receptacles.

Surely it is no hardship to provide these receptacles, for one can be purchased from 50 cents up, and then the labor of a minute of tacking it up. The advantages of a mail receptacle are many, for they not only insure the safety of your mail, but enable the carriers to cover their routes more rapidly. This all helps to improve the service. Why not, then, co-operate with the postoffice in obtaining these results?

The patrons of this office are away behind in this matter, and it is not to the credit of Santa Ana that such is the case. Many cities have more than 90 per cent of mail receptacles, and the showing here in Santa Ana is very poor.

Why not get busy right away and put up that mail receptacle, for later on you are going to be compelled to provide it, or else lose the privilege of free delivery at your respective doors? Won't you consider this in its proper light? The time to act is now.

CHAS. D. OVERSHINER, Postmaster.

L. A. WOMAN FED UPON KITTEN SOUP OBJECTS

LOS ANGELES, Feb. 14.—Officers of the court of domestic relations are trying to vary the diet of the Vazansky family as a result of the testimony of Mrs. Anna Vazansky before Superior Judge Craig. She charged John Vazansky of Palmdale, with failure to provide.

Mrs. Vazansky declared her husband killed the family's pet kittens to make soup, slaughtered the family horse for steaks and stew, and converted the children's pet rabbits into other food. Four little children, the oldest 8, huddled about Mrs. Vazansky as she gave this testimony.

OUTFALL SEWER MUST BE BUILT BY THIS CITY SAYS REID

Situation As to Sewage Disposal Clearly Outlined at M. & M. Luncheon

That Santa Ana within the next two years must build an outfall sewer to the ocean was emphasized at the weekly luncheon of the Merchants' and Manufacturers' Association held at James' Cafe today. The emphasis was placed by Sewer Superintendent Ransom Reid, than whom there is none better informed upon the sewage disposal situation of this city.

Reid reviewed the situation briefly in a paper he had prepared, and afterward answered numerous questions concerning the project, details of which had already been made public by Reid and other city officials.

That the city's contract with the Southern California Sugar Company will end on January 1, 1919, was brought out, and Reid stated that managers of the company had said that

the company will not take care of the sewage after the expiration of the contract. Reid said it would take a year from the time proceedings for bonds start until the work is completed, so it will be necessary for the city to act soon.

Following Reid's address, J. S. Smart expressed himself as being strongly in favor of a general endorsement of the project, for he believed that Santa Ana will grow to be a city of 50,000 or 60,000 people.

Reid said that when all the details are finished the matter will doubtless be brought before the M. & M. for endorsement. Until then no endorsement was asked.

Reid's paper follows:

Reid's Address
"Santa Ana in 1898 voted \$65,000 bonds at 4 1/2 per cent interest to put in a complete sewerage system. Nearly all of the built up portions of the city were sewered at that time north of Chestnut avenue and an outfall provided, running west to a small farm of twenty-six acres purchased for sewer farm purposes. In time other lands were added to this farm and many other streets were sewered, all draining to the same outfall. In 1911 the Pacific Electric tract and lands south of Chestnut avenue were subdivided, requiring sewerage; a district was formed in the Pacific Electric tract and the work prosecuted under the Vrooman act, with the South Side addition conditions were different as there was no outfall nor could one be run to the sewer farm.

"In July, 1912, this city entered into a contract with the Southern California Sugar Company under these conditions: The sugar company was to advance us \$8000 to put in an outfall on Fairview avenue from Orange avenue west to Bristol, also a line on Bristol street from Chestnut avenue south to lands one-quarter of a mile south of the old race track corner, deed us a lot 100x200 feet at this point on which to erect a septic tank, and to take care of all sewage from said tank through their pipe line to the Pacific ocean, for a period of seven years (Jan. 1, 1919).

"This city agreed to lease the company the sewer farm during this period and pay them \$200 per month for the care of the sewage. With the \$8000 the city put in the outfall as described and in 1912 the district was defined south of Chestnut avenue and sewers laid draining into Bristol street. As to the wisdom of this move, I will call your attention to the phenomenal growth of this portion of the city.

"Presuming that an outfall at that time would have cost \$65,000, and the interest on the same, 4 1/2 per cent, would be an annual interest charge of \$2925, or practically \$244 a month. At this time the Board of Trustees, very wisely and looking to the future, acquired rights of way for outfall purposes from the Board of Supervisors of Orange county over and along certain highways southwesterly from the city, also a strip of land fifteen feet wide along the east line of the holdings of the Willows Land Company and paralleling the Santa Ana river to the Pacific ocean, practically a complete right of way from the city to the ocean and about nine miles in length.

"Up to this time our relations with the Southern California Sugar Company and now the Holly Sugar Company, have been very pleasant and satisfactory, and probably would remain so indefinitely, but the latter company, having increased the capacity of their factory the past season, their outfall is taxed to its capacity. In our conference with this company on these matters, it seems improbable that they would enter into any future dealings; therefore we must by January 1, 1919, be prepared to pilot our own boat.

"The original and only bond issue on sewers was \$65,000; against this has been paid \$30,000, leaving a balance of \$35,000.

"At this time the advanced cost of materials entering into the construction of a new line to the ocean would mean an expenditure of from \$65,000 to \$85,000.

"There are three methods whereby funds could be raised for this contemplated improvement: First, bonds; second, by a direct tax; third, by an assessment district covering practically the whole city.

"This whole subject is now under consideration by the Board of Trustees of this city and in due time a comprehensive plan will be submitted to your organization looking towards an indorsement of this project.

Salt Lake Officials
Santa Ana boosters are anticipating the luncheon on Wednesday of next week with a great deal of interest, for the intentions of the Salt Lake line in the matter of operating in this vicinity may be disclosed by representatives of the company who will be present.

The "big guns" of the road will attend the luncheon and in all probability one or more of them will make addresses. Whether they will disclose their plans or not, of course, is not known. It is expected, however, that they will have something to say that will have an important bearing on the future of Santa Ana in particular and Orange county in general.

Among the officials who will attend the luncheon will be H. C. Nutt, general manager; F. A. Wann, general traffic manager; Douglass White, industrial agent; and J. J. Tavis, local commercial agent.

**BREAKS A COLD IN
JUST A FEW HOURS**
"Pape's Cold Compound" Ends Grippe Misery—Don't Stay Stuffed-up!

—You can end grippe and break up a severe cold either in head, chest, body or limbs, by taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Be sure you get the genuine.—Advertisement.

Taffetas \$1.50

—In great variety of patterns and qualities.

—Shown only in the darker combinations of colors, stripes and plaids, in rich colorings.

—Yard wide, priced at \$1.50, \$1.75, \$2.00 and \$2.50.

Charming New Spring Dresses

—Dresses on straight pleated, chemise, belted Russian blouse, coatee, and surplice lines, indicates the variety that will be the "spice of life" for Spring.

—Serges, taffetas, and soft silks all are featured, and bright colorings rule, even to Persian effects in embroidered trimming.

—And you will find a wide range of prices, \$12.50 to \$37.50.

Individual Models, \$25 to \$35

—Featuring the new colorings in the highest class silks.

—We are showing Italian Silks, high quality Taffetas, beautiful Crepe Metiers, and Crepe-de-Chine Models, all individual.

—Such colors as Turquoise blue, purple, gold, dove grey, apple.

—Beautiful models, many of them hand embroidered at the belt, cuffs and collar.

Taffetas, etc., \$12.50 to \$20

—Even at the low price of \$12.50, we show Spring dresses of taffeta, in the wanted colors, plain or striped. The dresses are attractively finished in hemstitching and shirring.

—New white Serges, yoke and pleated models, embroidered in pastel colorings, priced at \$18.50.

—Lovely crepes, at \$20.00.

New Patterns in Wash Voiles

Printed Voiles, 25c, 35c

—Spring is lavish in her colorings of wash materials.

—Japanese effects, Paisley patterns, Chailis effects are shown for Spring, along with the favorite floral patterns.

—Our 25c and 35c goods are of excellent quality, 36 to 40 inches wide, and the range of choice we offer is wider than ever.

Printed Voiles, 40c, 50c, 60c

—In the higher qualities, we feature the more unusual patterns, some of them actually "works of art" in their delicate shadings of pastel colorings.

—Plain voiles of high quality, striped voiles of many widths, high novelties in bold checks, in a remarkable variety of design, chosen from many lines.

Favored Spring Styles in Silks

—For Dresses, Blouses, Skirts, Suits

—Assured weaves that will be worn throughout Spring and Summer will be on display this week. High novelties have jumped into favor in the style centers of the country, and for Spring we show the best of them: Italian Silk Fabrics, Silk Serges, Striped Poplins, Plain and Striped Rajahs, rich plaids in Taffetas.

—And the rich color schemes for Spring! New colors have been brought out to find immediate favor, and the combinations are the gayest ever. Purples and gold, pearl and pinks, turquoise blue and maize, rose shades, apple, chartreuse, mustard, in variety most attractive.

—All are fresh, new silks, from the looms of the best American makers. Here are some of the novelties we are showing for Spring:

Italian Silk Fabrics \$2.50

—The Silk Jersey of supreme quality, made by the manufacturers of the famous "Kayser" gloves.

—For sport apparel, and sweaters, this material is in growing favor. We show it in the new colorings, purple, gold, grey, China blue, green, and rose. Quality heavier than shown before. Yard wide, at \$2.50.

Plain and Striped Rajah

—For blouses and sport suits, the new Rajah Silks are most attractive and serviceable.

—One gay combination, is the "Oyster White" with big Dragon colored polka-dots in greens and blues. Other patterns are in vivid stripes of purple and gold. Plain shades are shown in the new colors.

—Priced, plain colors at \$1.75, stripes and dots at \$2.00 and \$2.50.

New Silk Serges

—Of most beautiful plaids, in white grounds with two tone broken plaid designs.

—For dresses or blouses or sport skirts, this is a material with individuality. We show it in several designs of greens, coral, pinks, and lavender. Width 36 inches, at \$2.00 per yard.

Striped Poplins and Pongee

—The new gold shade is featured largely in our new striped Poplins for Spring.

—Combinations of purple and gold, blue and gold, green and gold, in both even and fancy stripes are shown. Pongee can also be had in these richer colorings.

—Material yard wide, priced at \$1.50 per yard.

Spring Tailored Suits

—There is a freshness about the Spring models of Tailored Suits that you can appreciate only in seeing them on you.

—We'd deem it a privilege to show you and give you every attention in making your selection.

—The Spring styles feature these:

English Tweeds, \$22.50 to \$35.00

—Strictly tailored, small collar, small lapel, short coat, with patch pockets on coat and skirt, the coat featuring the pinched-in back of the English cut.

—Shown in tans, blues, greys, and green mixtures of several qualities of material.

—Prices \$22.50 to \$35.00.

Sport Models, \$35.00, \$37.50

—Of the new Buerella Cloth, and Jersey, cut with loose fitting belted coats, pleated pockets, and featuring the high colors in favor this Spring. Turquoise blue, Chartreuse, Gold, Green are among them.

Velours, \$30.00 to \$37.50

—The wool Velour is being shown extensively this Spring. And with staple serges, we are showing delightful Spring models for those who do not care for the extremes of the "Sport" or English cut.

—Plain colors or plaids of individual pattern.

DESTROYERS TO HOLD GUNNERY PRACTICE

Torpedo boat target practice probably will be held on the Orange county coast near Newport in the near future.

The United States destroyer Farragut halted off the pier at Newport Beach yesterday and sent a boatload of sailors ashore. At Thirtieth street the tars placed a number of landmarks, or signs.

The men said that the marks were being put in place preparatory to holding target practice off Newport.

The Farragut also took soundings off shore.

PAINFUL COUGHS RELIEVED
Dr. King's New Discovery is a soothing, healing remedy for coughs and colds that has stood the test of nearly fifty years. For that cough that strains the throat and saps the vitality try Dr. King's New Discovery. The soothing pine balsams and mild laxative ingredients soon drive the cold from the system. Have a bottle on hand for winter colds, croup, grippe and bronchial affections. At your Druggist's, 50c.

POMONA BUSINESS MEN SEEKING GOLF LINKS

POMONA, Feb. 14.—Plans to establish golf links in the hills south of this city are being laid by business men of this city who desire to do away with the necessity of going to the links at Claremont in order to play. The South Hills offer ideal opportunities for a links, it is believed. The business men's movement it is said will likely bear results in the near future.

ROWLEY DRUG COMPANY

REVENGE ON HUBBIES AT BUSINESS MEN'S COST TO BE HALTED

PASADENA, Feb. 14.—A has the practice of many women in seeking revenge on their divorced, or about to be divorced, husbands by recklessly increasing their charge accounts before the store proprietors are aware of strained relations existing in the domiciles of their woman customers!

The Merchants' Association has recommended the passage of laws which would protect the merchants as well as the husbands.

Running up large bills at or near the time of separation has become a popular form of revenge, merchants stated. One woman bought \$1000 worth of jewels on the day before she was to receive her decree. Another bought an automobile and had it charged to her husband from whom she was separated.

JOY RIDERS TAKE CAR AT THE INTERMEDIATE

Joy riders caused Clara E. Cade, 1426 West Fifth, several hours of worry last night, when they drove off with her car. The machine was found about 1:30 this morning near the Southern Pacific crossing on Washington avenue. It was reported in by Fred Marsiles.

The Cades drove the car to the Intermediate school on Main street last night and it was taken while they were attending the Cooke lecture.

ORANGE A. C. WOLLOPS L. A. Y.M.C.A. QUINTETTE

Cineching second place in the A. A. U. League, the Orange Athletic Club quintette in a sensational contest staged on the Orange courts walloped the Los Angeles Y. M. C. A. five by a score of 26 to 15. The splendid shooting of the Orangemen did the work for them. Scores were kept down by the back-court play of Hogan of Orange, and Olney for the Angel City men. Orange may still tie for first place in the league should the Whittier Crescents drop another contest.

TRUSTEES DID NOT MEET

Owing to the fact that adjournment on the night of Feb. 5 was to Feb. 12, the City Trustees found that they could not meet last night, as was expected. The Trustees will meet next Monday night.

ROD, REEL CLUB OF COUNTY TO MEET FRIDAY

Announcement today was made that a meeting of the members of the Orange County Rod and Reel Club would be held Friday evening in Victor Walker's sporting goods store. The club has not been very active during the past two years, but it is planned to revive interest and Friday's meeting will be for the purpose of discussing various subjects in connection with the coming season's fishing. The organization has about thirty-five members.

FARMER LEGISLATORS OPPOSE GRAIN MEN AT MINNEAPOLIS MEETING

MINNEAPOLIS, Minn., Feb. 14.—While North Dakota's farmer legislature today argued for the establishment of a terminal elevator at St. Paul, a rival of this city, the national annual convention of the Farmers' Grain Dealers association, which is not in sympathy with the farmers' political movement, met here for a two days session.

The Non Partisan league, the political organization that gained complete control of the North Dakota administration this year, never has taken the Farmers' Grain Dealers association to its bosom. Instead, the farmers of the Northwest have been taught by the Equity association, the marketing force behind the Non Partisan league, that the Farmers' Grain Dealers association is controlled by the Minneapolis Chamber of Commerce, against whom the wrath of the Non Partisan league is primarily aimed.

Open disapproval of the elevator men to the proposed terminal elevator plan at St. Paul, may be expressed at the sessions this afternoon.

STOVALL AND 3 WORK

LOS ANGELES, Feb. 14.—George Stovall, Chink Mattick, Irish Meusel and Pat Harkins did some limbering up at Vernon yesterday.

HOPE TO BUILD CHURCH SO FINE OAK REMAINS

It is the expectation and hope of those who will have charge of planning for the new Christian Science church to be built at the southwest corner of Tenth and Main streets that the church may be built without destroying the fine oak tree that is growing upon the property. This morning work was commenced, clearing away some pepper and old fruit trees on the site, but the oak will not be molested. Plans for the church have not been made, but when they are drawn it is expected that they will be figured with special reference to saving the tree, if it is possible to save it and still utilize the lot for the purpose for which it was bought.

GETTING FUND TO BUY AUTO FOR MINISTER

Members of the W. C. T. U. have started a movement to raise a fund for the purpose of buying an automobile for Rev. Mendoza. Methodist minister at the Spanish mission here. Rev. Mendoza preaches four times on Sundays, twice in Santa Ana, once at El Modena and once at Wintersburg, and an automobile will facilitate his work on other days of the week as well as on Sundays. It is requested that those who will contribute to the fund to leave their subscriptions at the First National Bank or the Orange County Trust and Savings Bank.

WOMEN ACT AS JUDGES OF SWINE AT DAVIS

DAVIS, Cal., Feb. 14.—Students at the University of California farm here today engaged in a swine-judging contest, while swine-breeders of the state looked on. Another swine-judging contest for women only was a feature of the breeders' meeting today. A "Berkshire Love Feast," with the tables groaning with roast pig is today's big feature.

BELL-ANS

Absolutely Removes Indigestion. One package proves it. 25c at all druggists.

OIL DRILLERS ON BAY MAY GIVE UP PROJECT

Hard luck again has overtaken those who believed they had succeeded after years of endeavor in developing oil near the inner Newport Bay, water once more entering the casing causing what is said may possibly result in a permanent halt of operations. It was announced the other day that the drillers had discovered a means of doing away with difficulties resulting from the presence of water in the well. When drilling was resumed, however, water again poured into the pipe, baffling the drillers. There is absolutely no doubt but that there is oil in the vicinity, but the present well, it is stated, is too small. It is said that the project may be definitely abandoned.

FARM ADVISERS FROM 14 COUNTIES IN CAL. COMPLETE CONFERENCE

BERKELEY, Feb. 14.—Farm advisers maintained in fifteen counties of California by the University of California and the United States Department of Agriculture, wound up a three-day conference at the university today. Tomorrow they will meet at the University Farm, at Davis, to inspect the farm and exchange ideas for three more days.

Some interesting discoveries in agricultural practice probably will be demonstrated at the Davis farm Thursday, Friday and Saturday. Among them is a simple way in which any farmer can turn his automobile into a portable power plant. The university experts have developed a piece of machinery, which costs \$5, and which can be attached to the crank-shaft of any automobile for pumping water, sawing wood, cutting feed, and for many other purposes.

A new type of silo, which costs only \$1 for each ton of capacity, and which can be put up in a day, will also be demonstrated.

PATRIOTISM AND THE WAR SCARE

Several people were heard to remark about the war scare, "I don't care, it doesn't make any difference to me, I should worry." It was easy to see that that person's loyal support of his country would depend very much on his pay envelope. If patriotism required any personal risk or sacrifice, there would be nothing doing.

One reason for the ill success the English have had in this war has been the low state of patriotic feeling. Many English people were interested only as it affected money making. They would make no sacrifices, and cared little whether their nation suffered disaster or not. Whoever ruled the country, they expected to go along about the same.

In the old days a nation where that spirit prevailed did not live long. Its warlike neighbors soon discovered that it was morally weak. History shows that when patriotic ideals and love of country becomes dead or decadent, the nation is soon overrun by stronger alien forces.

The United States is so wealthy, it is so protected by a 3000-mile bulwark of salty seas, that it will perhaps escape the perils that have overwhelmed many former states. We may be able to defy the laws of national decadence. But it is not merely a question of going to war. The soul of a nation may be ruined in peace by absorption in sordid money getting.

Patriotic organizations have long realized the need of this loyal feeling. But it can't be created merely by flag salutes. Boys and girls should be made to feel the romance and heroism of American life. The great characters of our history, their endurance, and sacrifices should be constantly kept before them. Perhaps in these ways, American youth can be made to see all that America stands for, and to feel that the heritage handed down to us is one that must be maintained at all costs.

THE SCHOOL NEEDS THE HOME

"There is no other co-operative agency so much needed by the school as the home," declares Franklin B. Dyer, superintendent of the public schools of Boston, Mass., in a communication to the United States Bureau of Education. "There never was a time when the need was so great for intimate connection between the home and school as at present. The conditions of modern life are so complex, opportunities for good and evil are so numerous, the occupations of the home are so meagre unless they are related to the school, and the work of the school is so abstract unless it has a practical outcome in the home, that it is imperative for parents and teachers to get together."

"The co-operation should not be confined to a sentimental regard and respect of each for the other. The training of each must supplement the other. Such co-operation can come about in no other way so well as through organizations that bring parents and teachers into friendly and frequent association. The problems of character building, of habit formation, of training, of vocational counsel, in fact all the questions that pertain to the early period of child life, are of equal importance to parents and teachers."

PROGRESSIVISM'S GRIP ON CANADA

Progressivism is taking a firm hold on Western Canada. Take, for example, the platform adopted recently by the United Farmers of Alberta. This declaration demands the immediate reduction of the tariff between Canada and Great Britain, and eventual free trade with the Mother Country; reciprocity with the United States; direct taxation of unimproved land values; a graduated income tax; election by proportional representation; a graduated inheritance tax; publicity of campaign expenditures; direct legislation; competitive examinations for civil service appointments; national ownership of railroads, telegraph, and express equipment, and provincial control of natural resources.

The Christian Science Monitor boldly ventures the prediction that the section in which these ideas are favored is the section that will one day control the Dominion's public policies.

WITH MALICE TOWARD NONE

By Henry James

Thinking
"How many men," asks a distinguished editor, "spend 300 hours a year in actual concentrated thought?" He calls attention to the fact that they have to devote about this amount of time to dressing, bathing, shaving and chasing the truant collar button. It is his belief that this period of solitude should be given to thought. Evidently the editor himself has been thinking, although hardly 300 hours a year.

There are men so equipped that by concentrated thought they accomplish great things. They do not need to be told to think, any more than a cat has to be taught to purr.

There are many men who do not think, the reason for this being that they have been denied the essential equipment. All men who perform highly-skilled labor, who direct the conduct of men, who invent, are thinkers, each after his own kind.

The individual born to mental station and therein content does not think—not the concentrated type of thought, anyhow. By the mere process of solitary reflection he could gain nothing, get nowhere. Not only does he lack the apparatus, but his circumstances keep at a low plane such mind as he may possess.

Moreover, while chasing a collar button this concentration process would be difficult even to the wise. Some people walk a tight rope or play the concertina. Such are their gifts and limitations.

More Free Verse

Last week this department ventured to present some free verse. Please understand, that it was presented as free verse and not as literature, but that it came as near being literature as a lot of stuff that gets by, rotten as it was.

Triumph of the Pugilist

Not long ago a pugilist was killed by a blow received in the ring, and thus he and his opponent were vindicated. It is plain that there had been no rehearsal of the fight.

The Aviator

There is no such thing as an aviator, which makes the subject worth mentioning. Just because a woman elects to be

an aviator is no reason for calling her names.

Being Real Vitriolic

A man in the Imperial Valley has been convicted of dousing a sleeping male acquaintance with vitriol, but the jury recommended leniency.

Perhaps the fact that the victim long had been known as the handsomest man in the valley had something to do with the jury's state of mind. It is difficult for masculine affection to reach out to the pretty specimen of his own sex.

Losing Hair

For hair just naturally to fall out is common enough. There are many cures for it, mostly manufactured by the hopelessly bald.

In Santa Ana the other night, however, a girl while sleeping was in some mysterious manner deprived of her locks. Happily they will grow again. If the rival should be caught his treatment ought to constitute a complete preventive of similar losses.

Bone Dryness

Several states have gone, or are going "bone dry," which is to say that the stuff you know what it is—can't be brought within the borders of the prohibited territory.

Nevertheless, a bone dry state next to one that still tolerates moisture is going to receive more or less seepage.

One Cheering Thought

Horrible as war would be, a gleam of cheer comes from the contemplation of the fact that certain talkative gentlemen who have done so much to bring it about might have to go to the front where the prevailing weapons are not jawbones.

Congratulations

Several years ago a Southern California woman gave birth to triplets, winning thereby the deathless boon of a congratulatory message from the gentleman in the White House.

Just now the triplets are thriving as best they may on the diet that prevails in a county institution, and though a copy of the congratulations has been preserved there seems to be no nutriment whatever in it.

Health News

Issued by U. S. Public Health Service

A clergyman living near Leyden was the father of thirteen children. The eldest, born December 31, 1689, as Herman Boerhaave, accounted by many the most famous physician not only of the Eighteenth but probably of any century. He died of gout in 1738.

He was an indefatigable teacher, sometimes lecturing five hours a day to his students at Leyden. He was the first to give separate lectures on ophthalmology (the science of diseases of the eye) and to use a magnifying glass in the examination of the eye. He combined with a desire to study disease at the bedside a freedom from theoretical and philosophical influence which led him to use the most modern diagnostic apparatus which he could secure. He was so famous that a Chinese official once sent him a letter addressed simply "To the most famous physician in Europe." His maxim was, "Simplicity is the seal of truth."

The modern diagnosis of disease aims to employ every method which will reveal the exact mental and physical condition of the patient. Psychoanalysis will reveal the depths of the patient's mind almost as clearly as the

X-ray shows the broken bone hidden beneath the body tissues. The pressure of the blood against the vessel walls may be accurately measured and appropriate means taken to ward off an apoplectic attack. The bodily excretions may be analyzed and the efficiency of the excretory organs determined. Special apparatus permits the examination of the eye, the ear, the nose, throat, bronchi, and the interior of various other parts of the body. Nothing is taken for granted; the blood is examined; the activity of the stomach is estimated; the validity of the nervous system is looked into. The modern physician finds the disease before he treats it.

Accurate diagnosis is of importance to the public health because an early and correct knowledge of the presence of a disease affords opportunity to prevent its spread. The case of tuberculosis which is found early has an infinitely greater chance of recovery than the one which is found late. Boerhaave recognized these facts in a general way and applied them in fact, according to Rohlf, he was the first who made a chemical examination of some of the bodily excretions.

The Newspaper's Time of Trouble

The New York Times prints in a box on its first page a statement of its 1916 records as follows:

Circulation—Net sales, 124,593,327 copies.
Average daily and Sunday, 340,419 copies.

Paper consumed, 67,914,000 pounds.

Ink consumed, 1,062,000 pounds.
Advertising space, 11,552,496 lines. This is impressive until it is subjected to analysis from a business viewpoint.

The cost of producing newspapers has increased tremendously in the last two years. Print paper has been

advanced in price so much that it has occasioned governmental inquiry. Ink has gone 'way up. Many newspapers in various parts of the country have been hit so hard that they have had to suspend publication. In some cities newspapers have raised the price at which they were sold from one cent to two cents and there has been some increase in advertising rates, but there probably has not been a time in the last half century when the newspaper industry the nation over was in so bad a state financially as today.

Few newspapers are making money. The vast majority are suffering heavy losses. And this at a time of colossal circulation, unprecedented advertising and the greatest general prosperity the country has known.

In their desperate efforts to reduce production costs the publishers have resorted to the poorest quality of print paper that can be made. Some of this paper is so bad that it has to be handled carefully or it cracks and tears. The quality of the ink, too, is vile. To bind the newspaper of today into volumes for reference by people in the future is ridiculous. The paper changes color, rots and falls apart. The ink fades. There are libraries that have copies of newspapers printed twenty, fifty, 100 years ago that are as good today as the day they came from the press. Posterity will not know anything of the New York newspapers of today from seeing these papers, for there will be no copies to see.

TRIBUTE TO LINCOLN

High School Has Outdoor Assembly and Hears Cooke At Clune's

Edmund Vance Cooke, America's great poet, made a big hit with the students of the Poly High yesterday, when he came before them at a pay assembly held at Clune's Theater. W. M. Clayton, a member of the faculty, introduced Mr. Cooke, and he proceeded to entertain the students right royally, judging from the volumes of laughter which greeted his renditions. In commemoration of the great benefactor, Abraham Lincoln, the students listened to fitting eulogies on this man, whom all were urged to emulate.

Eugene Trago, the new student body president, suggested that the students sing "America" instead of the regular school song, which was carried out.

The program was opened with an eulogy on Lincoln by Henry Poyet, of Miss Wyant's oratory class. Clarence Hofer read "The Perfect Tribute," by Mary Andrews. Arnold Townes of the oral expression class gave another eulogy on the great emancipator, and Miss Muriel McPhee closed the program with "Oh Captain, My Captain."

The assembly was held in the Greek theater yesterday afternoon.

Loyal Workers to Meet

MEXICAN WORK

Santa Ana W. C. T. U. Meets Yesterday At First Methodist Church

The Santa Ana W. C. T. U. held a very interesting meeting yesterday afternoon in the parlor of the First M. E. church, with a splendid attendance. The subject was "The Mexican Work of Santa Ana," Mrs. Frank Heil led the devotional service.

The plan of "each one win a new member" was adopted. The plan has been arranged by the state officials, and each member of this union is requested to win a new member.

Mrs. Lea Warren gave a report of the executive meeting recently held in Orange and a quartet composed of Mmes. Chapman, Crites, Hayes and O'Brien furnished some splendid music.

Miss Burcher, teacher of the Mexican children at Lincoln school, gave a splendid talk on her work with these children. She finds they generally come from good families and are cleanly dressed, and anxious to learn English. A great deal of good work is being done for these children in the schools.

Rev. Mendoza, pastor of the Mexican church of Santa Ana, told of the work and of the needs in the work in Santa Ana. He is very much handicapped in his work by not having an automobile to go over the county, where there are so many of the Mexicans. His work could be much more efficient had he better equipment.

Mrs. J. H. Edwards gave a reading on "A Man in the Making."

The treasurer desires that all who have not paid their dues for this year will do so by the next meeting, as the year ends March 1. The next meeting will be held at the home of Mrs. T. A. Winbigger, 207 East Ninth street; subject, "Frances Willard Memorial and Crusade;" committee, Mrs. A. L. Dearing, Mrs. Tubbs, Mrs. Susan Burns and Mrs. J. M. Copeland.

Domestic Science Organization
Miss Grace Whitely of the Polytechnic high school has been elected president of the Orange County Domestic Science organization. Miss Lucille Turner of Anaheim high is vice president. Miss Katherine Caldwell of Fullerton high is secretary-treasurer.

This organization, which had its beginning at the recent Teachers' Institute, was completed Saturday at a meeting in the Anaheim high school.

The members adopted the constitution and discussed the course of study for both the grammar and high schools. It is their plan to conform the studies of sewing and cooking throughout the county. They will meet at least three times a term, near the beginning of school, at institute and near the end of the term.

The Tustin Twelve

Mrs. G. W. Pollard of the San Joaquin ranch was the special hostess yesterday afternoon to the Tustin Twelve, the home being bright with velvety marigolds.

The ladies busily occupied their time with dainty needlework and the club's sweet singer, Mrs. Charles Johnson, sang several numbers. Mrs. Clarence Nissen, a guest of the Twelve, pleased the guests with well-rendered readings. Other guests of the club were Mrs. Walter Pollard, Mrs. Charles Ward and Mrs. Scott.

Before the merry group separated, Mrs. Pollard served an appetizing collation of chicken salad, sandwiches, olives, coffee and home-made cake.

Round Table Discussion

The Lincoln P. T. A. will meet Thursday afternoon at 2:45 o'clock in the kindergarten room. An interesting Round Table discussion will be conducted by the teachers of Lincoln school.

POET VISITS

Edmund Vance Cooke Delights Hearers Big and Little In Rendition of Poems

Edmund Vance Cooke's visit here yesterday will long remain a pleasant memory for those who heard him render a few of his own poems and his plea for the importance of poetry will probably accomplish something towards restoring it to its place in the reading world.

During the day, Mr. Cooke pleased audiences of high school, intermediate and primary children and in the evening gave a lecture entertainment to grown-ups at Intermediate auditorium, where he was greeted by a large and appreciative audience.

The poet deplored the decadence of poetry and named some reasons which perhaps might bear upon relegating it to the background on the shelves of bookstores, where Robert Chambers and Harold Bell Wright are found near the doorways. Most of people know more about Douglas Fairbanks than about William Shakespeare and can name more famous pugilists than well-known poets.

Each set of poems was prefaced with most enjoyable remarks and ran from the Impertinent Inquiries of Children to the larger nationalism.

Fun, wit, philosophy, sentiment, religion and patriotism gave the hearers an idea of the wonderful versatility of the poet, his program being as follows:

Impertinent Inquiries—Hush! Don't You? Desire.

Little Tot Lyrics—At the Concert; When Comp'ny Comes; The Sin of the Copperplate Man.

The Family Group—Somebody Calls It Home; Father; When Your Big Boy Puts You Down.

Fragments of Philosophy—Fin de Siecle; Unverstaendlich; How Did You Die?

Rimes of Real Religion—Heaven; Why de Debbl? Yours.

The Larger Nationalism—Each for All; Mother Goes A-Marching; The Uncommon Commoner.

ABOUT DYE INDUSTRY

T. B. Kelly of High School Faculty Presents Scholarly Paper

A lot of interesting information was presented in a scholarly paper by Prof. T. B. Kelly of the Santa Ana high school faculty before the Monday Club on Monday evening, the subject being "The Effect of the War on the American Dye Industry." It was a subject that required much painstaking research in collecting the data for the various branches of discussion.

The many dyes on the market today consist of organic compounds usually of a very complex composition. The raw materials for these dyes are found in the products of the destructive distillation of coal, or petroleum, in the case of the artificial dyes, and vegetable plants, logwood, indigo and madder and cochineal bugs in the case of the natural dyes. The first of the artificial dyes appeared about fifty years ago. Then rapidly, one after another, the natural organic dyes, for centuries the only source of color, and the mineral dyes, were displaced by the vegetable dyes from their positions and reduced to subordinate rank. Coal tar contains 155 different chemical compounds, none of which are dyes. Ten of them are used to make dyes.

Referring to the status of the American dye industry before the war, the speaker showed that the supply of coal tar in this country is ample and sufficient to provide abundantly all of the dyes needed to make dyes consumed here, but we had not up to August, 1914, made full use of this valuable product. Many valuable by-products were not recovered in our coking plants, the value of which amounted to \$75,000,000 a year. The manufacture of intermediates was very limited, only four or five compounds being produced. These covered less than one-fourth of the needs of our dye works. The chief source of our raw materials was foreign manufacturers, German, Swiss, British, Belgian, and French. On an average Germany supplied 81 per cent, Switzerland 12 per cent, England 2.8 per cent, Belgium 2.5 per cent and France 1 per cent of the coal tar dyes used here. The total value of the German import in 1913 was \$8,538,000.

It is true four American establishments were producing dyes during the years preceding the war, supplying

in closing this exceedingly interesting account, Prof. Kelly mentioned the formation of the new laboratories at National City, in our own state, which are under the direction of a young German, George V. Heyl. This new chemical company under Heyl's superintendency is utilizing a once-despised lichen which grows in abundance on the lower California peninsula. This lichen is known as orchilla, and yields a pigment from which thirty-two shades are obtained. This product is fully equal to the aniline dyes and can be sold in the Eastern market at a lower price than the aniline. There is every promise that this new industry will develop into one of the important establishments of California.

Reasons Why Women Prefer

CRISCO

For Frying, For Shortening, For Cake Making

THEY appreciate the economical advantages of using Crisco. Crisco costs but half as much as butter and is so much richer that one-fifth less is required.

In deep frying, when done properly, less Crisco is absorbed than any other fat, for Crisco imparts heat more quickly to the food.

The same Crisco can be used over and over again for different foods. When strained it carries no taste of one food to another.

Crisco will keep indefinitely without spoiling. It is the ideal food-fat in all seasons.

Women who want foods to be delicious and digestible should give the all vegetable, wholesome Crisco a fair test. You are invited to do so.

Give your Grocer an order for Crisco.

nearly 100 different dyes, but they did so by assembling nearly finished products of foreign origin. The German dye industry is so completely organized and accustomed to act as a unit at home and abroad, that American firms were unable to compete. Thus before the war it can safely be said that the American dye industry was in its infancy.

At the outbreak of the war this foreign supply was cut off and textile works, manufacturers of chemicals, manufacturers of dyes and allied interests were suddenly brought face to face with a shortage in dyes from abroad. Out of this threatened calamity to American dye makers has arisen a great and ever-increasing industry during the first year of the war. An investigation by the federal government into the situation led to the advice to develop vegetable dyes to take the place of the foreign product. Chemists and experts were set to work and problems seemingly impossible have been mastered, and it is entirely probable that ere long the United States will be producing dyes in sufficient quantities to meet all demands at home.

Phenol or carbolic acid is now being made on a large scale by the Edison Company at the rate of 6000 barrels a day. This firm is doing much to lay the foundation for a comprehensive American dye industry. Edison has turned his attention to making aniline from benzol, thus furnishing this product which was formerly imported to the amount of 2,500,000 pounds a year.

In discussing the outlook for the future development of the industry, Mr. Kelly took an optimistic view. We possess in the United States all the needed raw materials in abundance to meet the demands of the world's dye industry. We offer the largest existing market for dyes. We have enterprise, inventive talent and technical ability to an almost unlimited extent. We lack one element of success, viz., a comprehensive American coal tar industry. Such a company is needed to provide the necessary raw materials. The dye industry as outlined we are bound to have and American chemists are all working hard to see this most brilliant feature of applied service established in this country.

Union Ladies' Aid Meeting
All the Ladies' Aids of Santa Ana, by whatever name known, are invited to meet at the Congregational Church Friday, February 16, from 2:30 to 4:30 p. m., for a Ladies' Aid good fellowship, get-together meeting.

The First Section of the Household Economics of the Ebell will meet Friday afternoon, February 16, at 2:30 o'clock at the home of Mrs. A. W. Ames, 519 East First street. The subject will be "Home Nursing and Dietetics." Members will answer to roll call by giving their favorite remedies.

Pleasant Birthday Dinner

E. S. Morrow, manager of the Pacific Telephone and Telegraph Company, pleasantly celebrated his birthday last evening with a few friends for dinner. Fragrant pink sweet peas formed the table's centerpiece and besides Mr. and Mrs. Morrow covers were laid for Dr. and Mrs. R. E. Whitford, Mr. and Mrs. E. S. Gilbert, Mr. and Mrs. K. E. Watson of Orange, and Mrs. Morrow's father, R. O. Warren.

The evening hours were enjoyably spent with bridge whist.

History Teachers at Dinner

Prof. Charles L. Deaver was host at dinner in the Dragon balcony last evening to the teachers of the history department of the high school.

Patriotic Luncheon

Mrs. R. G. Tutthill, assisted by her two sisters, Misses Mayme and Marguerite Dougherty of Portland, Ore., was hostess at a delightful patriotic luncheon yesterday at her home on North Broadway.

In honor of Lincoln's birthday, a red color, motif was utilized, red carnations decorating the table, the favor baskets being the same vivid hue and the place cards holding flags. The ice cream was moulded in red, white and blue, with a tiny flag on each plate.

the mints were of the patriotic colors and the cakes were topped with the Stars and Stripes.

Whist was the diversion for the afternoon. Mrs. George S. Briggs and Mrs. M. A. Patton winning the prizes. Mrs. Tutthill will entertain again tomorrow afternoon.

Yesterday's guests were Mmes. C. V. Davis, L. M. Doyle, J. I. Clark, C. M. Jordan, E. S. Gilbert, George S. Briggs, A. W. Rutan, V. A. Rossiter, G. S. Smith, Charles Kendall, F. W. Slabaugh, Frank Worden and M. A. Patton.

Personals

Mrs. W. M. Clayton spent the day in Los Angeles.

Mrs. Theo. Lacy, Jr., was a morning passenger to Los Angeles.

J. E. Stanley and family are guests at the home of City Marshal Jernigan. Stanley is commercial agent for the Spreckels railroad at San Diego and is here on business.

I. L. Godwin, 924 West Chestnut, left today for Three Rivers, Texas, having been called by the serious illness of his father. Godwin was informed yesterday of his father's condition and made preparations to leave at once. Mr. Godwin has been residing at Three Rivers for the past nine years, going there from Orange.

Mr. and Mrs. W. H. Smith went to Elsinore today for the benefit of Mr. Smith's health. He has been suffering for some time with rheumatism. Geo. Smith drove them to the springs in his Cadillac.

The important lectures on Health Foods by Mrs. Millen, of the Battle Creek Sanatorium, at D. L. Anderson Grocery Co., should be attended by every one, especially housewives. Demonstrations continuing all this week.

OHIO WOMAN'S WISH

For Tired, Weak, Nervous Women
Bellefontaine, Ohio.—"I wish every tired, weak, nervous woman could have Vinol, for I never spent any money in my life that did me so much good as that I spent for Vinol. I was weak, tired, worn out and nervous, and Vinol made me strong, well and vigorous after everything else had failed to help me, and I can now do my housework with pleasure."—Mrs. J. F. Lamborn.

We guarantee Vinol, which contains beef and cod liver poisons, iron and manganese poisons, and glycerophosphates, for all weak, run-down, nervous, debilitated conditions. Rowley Drug Co., Santa Ana, also at the leading drug store in all California towns.—Advertisement.

NOT GUILTY VERDICT BROUGHT IN TODAY BY AUTO JURY

Stage Driver Dyer Pleads Not Guilty to Charge of Peace Disturbance

This morning a jury in Justice Cox's court brought in a verdict of not guilty, following the taking of evidence in the trial of P. J. Lugo, a San Diego stage driver. Lugo was accused by H. W. Hawkins of Newport road of having driven so carelessly that Mrs. Hawkins, on a bicycle, was crowded off the street into a ditch. There was a controversy as to the facts in the case, passengers in Lugo's stage taking his view that he was not careless.

Pleads Not Guilty
E. D. Dyer, stage driver, pleaded not guilty to disturbing the peace of Mrs. Mary S. Wilkes of Hollywood, and his trial was set for February 28. Dyer was arrested in Los Angeles last night

Taking of Testimony In C. C. Campbell Will Case Starts This Morning

This morning the taking of testimony in the contest of the will of Charles C. Campbell was begun before Judge West and a jury, which was selected yesterday afternoon. The principal witness of the day was Mrs. Margaret C. Ferris of Los Angeles, sister of Charles C. Campbell and a sister of D. F. Campbell of Orange, to whose children the will leaves most of Campbell's estate, valued at \$26,250.

Mrs. Ferris testified that when a mere child Charles was injured by striking his head, and he was always irritable and nervous and subject to spells of anger. His parents never allowed him to work steadily as they did their other children. The testimony of Mrs. Ferris was along the line of that given in depositions, to the effect that Charles when grown was not capable of attending to his own business affairs. The contention of Mrs. Ferris is that her brother, D. F. Campbell, dominated Charles to the extent that Charles was influenced in making his will, which will Mrs. Ferris seeks to set aside.

This morning there was introduced a photograph of the deceased, taken in his Salvation Army uniform. Those on the jury trying the Campbell will contest are Jesse Williams, J. A. Evans, W. D. Barker, R. E. Beswick, J. M. Miller, J. P. Weinschenk, M. A. Clever, C. H. Getty, M. I. McCarty, F. J. Adams, Charles Kinser and A. L. Whitman.

Transferred Here
Today papers in the action for \$25,000 damages brought by S. and Ume Murata against John Cook, city official and well known rancher of Anaheim, were filed here on a change of venue from Los Angeles county. It is alleged that on September 5, 1915, an automobile driven by Mrs. Ume Murata, a Japanese, was struck from behind by Cook's machine, with the result that the woman had the pelvis fractured and received other severe injuries. H. L. Giesler and M. M. Cohen of Los Angeles are attorneys for the plaintiff and H. G. Ames of Anaheim and H. C. Head of Santa Ana represent the defendant.

Suit for Divorce

Action for divorce on desertion ground was begun today by Robert A. Dillon against Estelle Edwards Dillon. The couple married in New York on October 11, 1911, and desertion oc-

curred, says the complaint, on January 3, 1916. E. L. Searle and Stanley Visel of Los Angeles are attorneys for the plaintiff.

For Administration
In order to clear title for property, O. W. Humphrey has petitioned for letters of administration on the estate of Lizzie J. Shallenberger, who died on July 26, 1903. The estate concerned is valued at \$100. H. C. Head is attorney for the petitioner.

Recorder's Office
Ranch property has been attached in connection with a suit of the First National Bank of Anaheim against C. E. Boone for \$500.

Two certificates of sale were recorded yesterday. By one Sheriff Jackson transfers 9.55 acres from W. F. Durr to M. E. Bever for \$1965.53, and by the other H. H. Moyer as commissioner transfers the north half of the west ten acres of lot 5, Felipe Yorba tract, from W. H. Adams to Mrs. Lavinia A. Mayfield for \$8500. There is recorded a deficiency judgment against Adams for \$205.85.

Damage By Smash
Suit for \$718.29 damages has been brought by P. M. Fawcett against the W. D. Head Drilling Company of San Francisco, which operates in the Fullerton oil fields. The complaint alleges that on January 1, 1917, Fawcett's machine was standing on the street at Anaheim when an automobile owned by the defendant and driven in a careless manner by Homer Spinnings, an employee of the defendant, struck Fawcett's machine from the rear and damaged it \$358. Fawcett sets forth that he is an orchardist living two miles east of Whittier, and that he has use for his automobile daily. Owing to the smash, Fawcett was without his automobile for thirty-six days, for which he asks \$360.

For Guardianship
Alice M. Buchheim has asked that she be appointed guardian of the estate of Carl E. Buchheim, aged 4. A. W. Rutan is attorney for the petitioner.

For Administration
E. A. Preston has petitioned for letters of administration on the estate of Mary Preston Sherwood, who died on September 29. The estate is valued at \$4800. The attorney for the petitioner is A. W. Rutan.

Answer is Filed
Today an answer was filed by Los Angeles attorneys for John O. Forster of San Juan Capistrano to the complaint by which the Bankers' Bond & Mortgage Company seeks to compel payment of a note for \$5000 given on April 16, 1914. The answer states that misrepresentation was used by H. S. Schulz, agent for the company, in that Schulz told Forster that the day previous a Pasadena man had bought \$50,000 worth of the stock, that L. P. Moulton of El Toro had bought stock and that George Forster of Fullerton had borrowed money from the company. Forster declares all three assertions to have been untrue. The answer declares that the note was given with the distinct understanding that it could be recalled if Forster on investigation found the company unsatisfactory. Forster found the company unsatisfactory, and tried to get his note back, but failed.

INACTIVITY CAUSES CONSTIPATION
Lack of exercise in the winter is a frequent cause of constipation. You feel heavy, dull and listless, your complexion is sallow and pimply, and energy at low ebb. Clean up this condition at once with Dr. King's New Life Pills, a mild laxative that relieves the congested intestines without griping. A dose before retiring will assure you a full and easy movement in the morning. 25c at your Druggist's.

MARKET WALNUT CULLS THROUGH ASSOCIATION. IS MANDATE

S. A. Body Elects Directors, Moves to Eliminate \$90 Yearly State Tax

With the election of a new board of directors, the adoption of a resolution making it mandatory for members to market their cull walnuts through the association and the adoption of a resolution for the taking of steps to do away with the annual payment of \$90 in state corporation tax were the principal results of the annual stockholders' meeting of the Santa Ana Valley Walnut Growers' Association, held yesterday afternoon at the city hall.

The directors elected were: A. J. McFadden (incumbent), A. C. Williams (incumbent), Harry Lewis (incumbent), M. Nisson and I. L. Marchant. The two latter succeeded E. D. Burge and A. C. Tiede.

The adoption of the resolution making it obligatory for association members to bring their culls to the association for marketing is the direct outcome of the general association having perfected up-to-date methods of cracking culls and marketing the meats of culls. The cracking plant operated by the association in Santa Ana has proved an unqualified success and it is believed that with every cull brought to the association for handling even more satisfactory marketing facilities and prices will be secured.

To Reorganize
Despite the fact that the association

is a non-profit bearing co-operative association it has had to pay heretofore a yearly tax of \$90 to the state, this because of the presence in the by-laws of the words "certificate of stock," making it appear that the association is a profit-bearing corporation. The resolution adopted yesterday provides for a reorganizing of the association along more modern lines.

Secretary O. H. Burke read his annual report yesterday. The traveling auditor of the association did not make a single change in the report as recently published by Burke.

Receipts and disbursements, the report showed, were \$395,951.10 for the past season, as against \$366,305.86 for the year previous.

Gain 21,687 Pounds
A total of 2,477,037 pounds of walnuts was received during the past season, in the following varieties and amounts:

Soft-shell No. 1, 1,856,154 pounds; soft-shell No. 2, 65,592 pounds; jumbos, 103,220 pounds; budded, 262,724 pounds; No. 1 off-grade, 94,133 pounds; No. 2 off-grade, 42,987 pounds; No. 3, "B" off-grade, 2944 pounds; Klondikes, 663 pounds; Eureka, 738 pounds.

A total of 2,498,724 pounds of walnuts was sold, a net gain of 21,687 pounds, due to processing. Sales of various varieties and grades were as follows:

Soft-shell No. 1, 1,898,563 pounds; soft-shell No. 2, 68,360 pounds; jumbos, 113,500 pounds; budded, 263,200 pounds; off-grades, 153,790 pounds; Klondikes, 663 pounds; Eureka, 738 pounds.

The net expense of handling the different grades of walnuts per 100 pounds was as follows: Soft-shell No. 1, \$1.163; soft-shell No. 2, \$1.013; jumbos, \$1.263; budded, \$1.344; and off-grades, \$1.088.

The new board of directors probably will meet Saturday to organize.

\$2,882,814 Received For Cal. Walnut Crop

Members of the Santa Ana Valley Walnut Growers' Association today are joining with those of the others comprising the California Walnut Growers' Association in expressing gratification over the reports of last year's business, just made public, in the central association's annual report.

Last year the 2204 members of the California Walnut Growers' Association derived \$2,882,814 from the sale of approximately 70 per cent of the entire yield of the state, 27,410,000 pounds.

The \$2,882,814 received last year is the greatest revenue ever obtained for a crop in one single season by the association.

Higher prices swelled the association's receipts by \$376,295, though the total California output last year was 2,240,000 pounds short of the year before.

The percentage of walnuts handled during 1916 exceeded by five per cent the percentage of the crop cared for during the 1915 harvest, according to the annual report. Though the association's business decreased 3 per cent in 1916, California walnuts brought 25 per cent higher prices than imported walnuts.

Improved methods of grading the walnuts, Manager C. Thorpe, in Los Angeles, states, have resulted in an increased Eastern demand for the California product and higher prices.

Other things set forth in the report are: That the association is debt free; that it has materially reduced the cost of selling; that a sales office has been opened in Chicago to facilitate Middle Western distribution; that it is planned to add to the association's membership growers who have set out thousands of acres of young trees that will be yielding soon; that more than 16,000 acres of non-bearing trees have been set out.

Despite the fact that 26,800,000 pounds of walnuts were imported last year, a record influx, California walnuts were sold more quickly than during any previous season.

COMES FROM L. A. TO AID E. K. WOOD OFFICE

Raymond Grey, who has been in the employ of the E. K. Wood Lumber Company in their Los Angeles office, has been transferred to the company's Santa Ana office. His position here is that of assistant to Manager Verne Whitson.

—The important lectures on Health Foods by Mrs. Millen of the Battle Creek Sanatorium, at D. L. Anderson Grocery Co., should be attended by every one, especially housewives. Demonstrations continuing all this week.

ARGENTINE PLAN OF ARMY DRAFT IS TOLD BY STEWART

Conscription System Proves Unpopular Among Com- moners of Republic

BY CHARLES P. STEWART
(United Press Staff Correspondent)
BUENOS AIRES, Feb. 14.—Argentina has an excellent little army, well officered, well trained, well equipped, well clothed, well fed, well sheltered, and generally well treated. But the system by which its ranks are filled is savagely criticized by Argentines. The critics are the bulk of the population, who assert that the "best people" do not do military duty, or, if they do, do it as officers.

It is the national system of conscription which comes in for popular denunciation. Argentina being a republic, the question may be asked why the law is not changed if the majority do not like it. They are trying to change it. Several bills have been introduced and some strong speeches made in congress but ballot has not been genuinely free in Argentina for a long time.

"Caramba"
"Caramba!" chorused the Argentine masses, when told that the United States thinks of adopting a system of compulsory military training modeled after their own. "Caramba" is an elastic Spanish expression which, in this case, meant approximately "Well, what do you think of that?"

The Argentine system of compulsory military education was the subject of a nasty scandal five or six years ago, when there was a cleaning out of the medical staff whose duty it was to make physical examinations of the young men of military age. The charge was that these examinations had resulted in wholesale exemptions of rich or influential youths.

There has also been comment on the fact that army officers who are in a position to grant exemptions often grow rich rapidly. Whatever the actual merits of the case the Argentine public believes anyone can escape military service if he has "pull" or money enough. When you ask why the 20-year-old son of some prominent man is not in the army, the answer is almost sure to be "Oh, his father fixed that." Naturally, proof of crookedness generally is lacking, but the masses have no confidence in the honesty of the system.

Excellent Training
Army officers receive an excellent military education at the Argentine West Point—the Colegio Militar, at San Martin. Provision is also made by which common soldiers may rise to commissions, though very few succeed in doing so.

There is a regular army of volunteer professional soldiers, 5,000 strong. Then come the conscripts. Their number depends upon the congressional allowance. The intention is to keep the military establishment, including the regulars up to 17,000 men.

Theoretically every male Argentine is a soldier from 20 to 45. In practice the period of service is one year. Afterward there is no further training though the law provides for a little.

There are always many more eligible than there are army vacancies. Numbers are drawn to determine who must and who need not serve. Those who draw the highest numbers go into the navy, where the period of service is two years, instead of one. As the Argentine navy is small, though good, the number of these conscripts is comparatively trifling.

Army Conscription
The next numbers, counting from the top downward, mean army conscription. Those who get the low numbers escape—maybe. The first thing is to try to beat the lottery.

The next, for the losers, is to secure exemptions, on the ground of physical unfitness, or because the conscript is the only support of relatives.

Critics of the law complain that the number of conscripts of wealth or influence who secure these exemptions is out of all proportion to those who have neither.

Even if the conscript fails to get off entirely he can try to pass certain educational tests and prove himself sufficiently adept at drill and marksmanship to trim his period of service to three months. Again the complaint is

They Let Him Sleep Soundly

"Since taking Foley Kidney Pills I believe I am entirely cured and I sleep soundly all night." H. T. Straygore.

Take two of Foley Kidney Pills with a glass of pure water after each meal and at bedtime. A quick and easy way to put a stop to your getting up time after time during the night.

Foley Kidney Pills also stop pain in back and sides, headaches, stomach troubles, disturbed heart action, stiff and aching joints, and rheumatic pains due to kidney and bladder ailments.

Gainesville, Ga., R. R. No. 3. Mr. H. T. Straygore says: "For ten years I've been unable to sleep all night without getting up. Sometimes only a few minutes after going to bed I'd have to get up, and I tried everything I heard of for the trouble. Last year I tried Foley Kidney Pills and after taking one bottle I believe I am entirely cured and I sleep soundly all night."

THOUSANDS SEE NEW VANCOUVER BRIDGE OPEN

VANCOUVER, Wash., Feb. 14.—In a din of steamboat whistles, clanging bells and cheers from thousands of spectators, the new \$1,750,000 interstate bridge between Oregon and Washington was opened today.

The structure is one of the longest in the world, four miles, including approaches. It spans the Columbia river between Vancouver and Multnomah counties, a few miles from Portland.

FINE FOR RHEUMATISM!

Musterole Loosens Up Those Stiff Joints—Drives Out Pain

You'll know why thousands use Musterole once you experience the glad relief it gives.

Get a jar at once from the nearest drug store. It is a clean, white ointment, made with the oil of mustard. Better than a mustard plaster and does not blister. Brings ease and comfort while it is being rubbed on!

Musterole is recommended by many doctors and nurses. Millions of jars are used annually for bronchitis, croup, stiff neck, asthma, neuralgia, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

At a meeting of the Santa Ana Board of Education Monday night, permission was given City School Superintendent J. A. Cranston to attend the national convention of school superintendents at Kansas City, commencing on February 26.

The school board appropriated \$100 for chairs at Spurgeon school, appointed W. M. Clayton as faculty supervisor of athletic properties at the high school. Ratification of the high school student body constitution was given.

When the great central draw was lowered into place today, a street car crowded with officials and noted visitors, slowly crossed. That was the signal for an outburst of noise such as the old Columbia never heard before. A procession of flag-bedecked automobiles followed the car and another long line of machines started at the same time from the Washington side. They passed in the middle.

While the crowd was assembling, an old, weatherbeaten ferryboat, the "City of Vancouver," slipped out of its berth on its last trip across the Columbia. The bridge had superseded it.

Bravely adorned with flags and bunting, the little craft chugged slowly under the central span, its funnel dwarfed by the towering steel framework. Its whistle tooted a hoarse farewell as it bucked the muddy current for the last time.

Today's ceremonies will be repeated more formally in June. At that time Governor Lister of Washington and Governor Withcomb of Oregon are to participate, delegations will come from the whole Northwest, including British Columbia, and if plans materialize, a flotilla of government destroyers will pass in review under the central span.

LARGE COPS NO GOOD IN SECRET PASSAGES OF S. F. CHINATOWN

SAN FRANCISCO, Feb. 14.—It takes slim "cops" to handle the Chinatown beat, explained Chief of Police White today, in transferring Patrolmen Fred Kacke, Earl Moore and John Crofton to other beats. The physiques of Kacke, Moore and Crofton conform more readily to boulevards and avenues than to the secret passages, narrow doorways and windows, and small cellars of Chinatown. The Chinatown squad has been reduced about 650 pounds by the transfer of these officers. Their places were taken by Patrolmen William McQuire, James Miles and Herman Hextrum. This trio is built more after the fashion of a toothpick.

News From Talbert Section

DRAINAGE DISTRICT VOTE CANVASSED

Various Dredgers Are Making Progress—No Rain Helps

TALBERT, Feb. 14.—S. E. Talbert, Leo Borchard and S. W. Price, directors of the Talbert drainage district, met Monday at Attorney Head's office in Santa Ana, where the votes of last Wednesday's election were canvassed. Ten days from that date is given the new directors, Leo Borchard and R. L. Callens, in which to qualify and give \$1000 bond. They will take office for the new year on March 6.

While moving the Stewart dredger from the river bed at the outlet to higher ground last week, the inlet was dug considerably deeper and the dirt banked on the pipe so if high water should come it will not interfere with the pipe line. The dredger, which was in charge of L. D. Fossum, operator for the Newport district, reached the bar Friday, a point about 500 yards from its former position.

The river dredger is now operating one-half mile below the Talbert bridge and is working steadily. As there is scarcely any water in the river at present, the work is progressing rapidly and if there is no delay the Talbert bridge will be reached in two or three weeks.

The Talbert ditch dredger is working steadily on the joint Newport-Talbert ditch and is passed the Adams

NO MORE WEAK KIDNEYS. BACKACHE, RHEUMATISM

New Specific Soon to be Brought to town, Says Letter:

Dear Mr. Editor:—Just lately, I am told and beg to inform your readers, that the famous Dr. Pierce, of whose medicines and Surgical Institution in Buffalo, New York, we have heard for years, has added to his popularity by assenting to put before the American people, "An-Uric." This prescription is adapted especially for kidney complaints and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, congestion of the kidneys, inflammation of the bladder, scalding urine and urinary troubles. The physicians and specialists at Dr. Pierce's great Institution have thoroughly tested this prescription and have been with one accord successful in eradicating these troubles, and in most cases absolutely curing the diseased kidneys.

Patients having once used "An-Uric" at the Institution have repeatedly sent back for more. Such a demand has been created that Doctor Pierce has decided to put "An-Uric" in the drug stores of this country, in a ready-to-use form. It will be their own fault if the public does not take advantage of this wonderful remedy.

I know of one or two leading druggists here who have managed to procure a supply of "An-Uric" for their anxious customers in and around this locality.

I have used "An-Uric" and believe it to be the greatest of kidney medicines and I have tried many. A few doses will convince, I feel certain.

A FIRM BELIEVER.

QUALITY and then quantity our motto. Groceries at right prices.

ranch. It is now thought this ditch will be opened up the entire length in about three weeks time, ready to carry all drain water from that section.

Mrs. Arnold Walker and children went to Long Beach last Friday where they were guests of Mrs. Walker's sister, Mrs. Morton. Sunday morning Arnold and Harvey Walker motored over and all spent the day at the home of a friend who served a barbecued dinner. Thirty-eight were present at the big feast, all being old friends and neighbors. The Walkers returned home Sunday evening.

Rev. R. P. Howe, presiding elder of the Los Angeles district of the M. E. Church South, was expected to be in charge of the service at the local church last Sunday evening and also to hold the second quarterly conference of this conference year, but he did not come. If nothing really serious was the cause of his delay it is expected that he will be here next Sunday.

Mr. and Mrs. Leo Borchard entertained a party of relatives last Sunday at a dinner at their home. Covers were laid for sixteen. The guests included Caspar Borchard, Sr., and Mr. and Mrs. Caspar Borchard and family of Oxnard, Mr. and Mrs. Charles Borchard, Mr. and Mrs. Antonio Borchard of Greenville, Miss Clara Hauptmann of Santa Ana and Will Hauptmann, Miss Hauptmann and Mr. Borchard, Sr., were overnight guests, both returning to their homes Monday morning.

The friends of Muriel Moranville, who recently underwent a surgical operation, will be glad to know that she has recovered from the effects and is again able to return to the employ of Charles Ward.

Sunday Mr. and Mrs. F. D. Plavan and family motored to Perris Valley where they visited with Ernest and Alma Plavan, and to Lakeview to see Mr. and Mrs. Harold Swift. Both young men are doing fine on their ranches. Harold Swift, who is farming beets, has twenty acres planted. The party returned home Sunday evening by way of the Santa Ana canyon. Miss Luella Swift, a niece of A. F. Swift and who has spent several weeks visiting with relatives, will leave this week for her home at Castlewood, S. D.

Harry Harper spent Sunday at Orange.

Mr. and Mrs. Walter Rozelle of Compton were Sunday guests at the home of Mrs. Rozelle's father, John Pope.

Several of the Talbert young people attended a dance at Wintersburg last Saturday evening.

Mr. and Mrs. J. O. Harper and children were Long Beach visitors last Sunday.

PLAVAN GETTING GOOD PRICES FOR CELERY

TALBERT, Feb. 14.—F. D. Plavan cut two carloads of celery at his Greenville ranch last week and shipped it to Los Angeles. About the same amount is yet in the field. The selling price for the shipment was between 40 and 50 cents per dozen. Plavan has 175 acres of sugar beets planted now and will have in 400 acres altogether this year.

HARNESS IS STOLEN

A valuable set of harness belonging to Arnold Walker was stolen from his barn last Wednesday night. The thief's tracks were traced to a Mexican house but the harness has not yet been recovered.

HAVE BOUGHT FORDS

TALBERT, Feb. 14.—Rev. Andrews purchased a 1917 model Ford equipped with self-starter and electric lights, of the most modern make, through the Tom Talbert Ford Agency at Huntington Beach. The machine was delivered last Saturday.

Leo Borchard purchased an up-to-date model Ford of the Huntington Beach agency the past week.

Beet land on the S. E. Talbert ranch is being prepared for planting as rapidly as possible. No seed was put in this last week.

Mr. and Mrs. J. E. Pettitt of Los Angeles are spending a week as guests at the Talbert ranch. All were agreeably surprised Sunday by the unexpected arrival of Mrs. Pettitt, a daughter of Mr. and Mrs. Pettitt, who has spent the past two and a half years in New York. Upon arriving in Los Angeles she found that her parents were with her aunt, Mrs. Talbert, here, so followed them and all are enjoying the reunion together.

In every home Sloan's Liniment has earned its place in the medicine chest as a relief from pains and aches.

Quickly penetrates without rubbing and soothes the soreness.

Cleaner and more effective than musky plasters or ointments, it does not stain the skin.

For rheumatism, neuralgia, gout, lumbago, sprains and strains use Sloan's Liniment. At all druggists, 25c, 50c, \$1.00.

Sloan's Liniment
KILLS PAIN

HOPING OIL STRATA REACHES TALBERT

Residents of Sugar Beet Section Are Much Interested In Mesa Well

TALBERT, Feb. 14.—Mrs. N. A. Nimocks, Mrs. Miller and family, Mrs. Youngling, Mr. and Mrs. Sherman and family and John Brewer motored to Newport mesa Sunday to see the new oil well which is being opened up there. The people in this vicinity are greatly interested in this new discovery as it seems possible that a like stratum might be located hereabouts and if this venture proves successful the possibility will be investigated.

Rev. and Mrs. Alvah Andrews moved in their new machine to Long Beach Monday for a visit with relatives.

Mr. and Mrs. R. Y. Perine entertained friends at their home Sunday, Mr. and Mrs. Carson and Mr. and Mrs. Ray of Newport Heights and Mr. and Mrs. Chas. Carson of Wanage, Kans.

Rev. and Mrs. Alvah Andrews attended a party Thursday night at the home of Mr. and Mrs. J. A. Hunton at Anaheim, who until recently resided at Greenville.

Mrs. Lovd Flythe returned home from Fresno Thursday, where she has been visiting with relatives since Christmas.

Mrs. Jessie and Mrs. Fowler of Newport, mother and granddaughter of Mrs. W. O. Ater, were guests Sunday at the Ater home.

Mrs. J. H. Cox spent Thursday at Huntington Beach.

Mrs. Arnold Walker and Mrs. Robt. Wardlow spent Wednesday in Santa Ana.

Mrs. Ray Wardlow visited with her sister, Mrs. Eader, at Huntington Beach Thursday.

Mrs. N. A. Nimocks has the garden-er who was formerly in her employ fixing up her yards. This will take several weeks.

Mr. and Mrs. Chas. Ward visited Sunday with Mr. and Mrs. Reuben Farnsworth at their new home at La Modena, where they moved a few weeks ago for the benefit of Mr. Farnsworth's health. The change has been of great benefit to him even in this short time. A part of the day was also pleasantly spent at Orange County Park.

Rev. Andrews' sister, Miss Anna Andrews, and brother, Robert Andrews of Long Beach, spent Sunday at the parsonage.

Mr. and Mrs. H. Y. Evans were Santa Ana visitors Sunday.

Mrs. N. A. Nimocks spent last week in Los Angeles.

Miss Idona Conditte of Huntington Beach was the week-end guest of Miss Agnes Giesler.

Mr. and Mrs. H. Y. Evans have as guests for the week Mrs. Evans' brother and wife, Mr. and Mrs. Will Wollaston of Santa Ana.

S. E. Talbert, accompanied by Mr. and Mrs. J. E. Pettitt and Mrs. Perrine, motored to Fullerton Sunday, where they visited friends.

FORMER PASTOR DOING WELL IN OKLAHOMA

TALBERT, Feb. 14.—A letter received the past week from Mrs. A. B. Waldrup at Verdun, Okla., states that she and Rev. Waldrup and little daughters are enjoying the best of health and are studying the best of health and their pastorate at Verdun, at which place they have been since leaving here two years ago. The church and Ladies' Aid Society are both prospering. During the past year \$575 was earned by the Aid society and donated to church work.

CONTRACT IS LET FOR WARD'S NEW BUNGALOW

TALBERT, Feb. 14.—Geo. Pickering, a Santa Ana contractor, has the contract for building Chas. Ward's new bungalow. It is expected that work on it will begin this week.

PLANTING POTATOES

TALBERT, Feb. 14.—Harvey Walker evidently is preparing for the potato famine. He has eight acres already planted and will plant four more later. Five acres are already up.

CHURCH NOTICE

TALBERT, Feb. 14.—Services will be held Sunday February 18, at the Methodist Episcopal Church, South, as follows: Sunday school, 6:30 p. m.; preaching service, 7:30 p. m. Rev. Alvah Andrews, pastor.

MAN GIVEN CHOICE OF HANGING OR SHOOTING ELECTS LATTER WAY

SALT LAKE CITY, Utah, Feb. 14.—Convicted of murder and given his choice of being hanged or shot to death, Orazio Rapole, an Italian farm hand who killed his employer in a quarrel over a horse, elected to be shot and will die at the hands of a firing squad here Friday morning. He is to be shot to death by a firing squad at the Utah state penitentiary. Rapole killed Amos B. Neff, ranchman, at the latter's home in East Mill Creek, June 26, 1916, using a shotgun.

Following the shooting Rapole fled across the hills and was captured at Park City. Following his conviction of first degree murder, a motion for a new trial was entered by counsel that attorneys who defended Rapole were under the influence of intoxicants at the time of the trial. Judge Morse, after having the motion under advisement two weeks overruled it and sentenced the convicted man to be executed.

Doctor Says Nuxated Iron Will Increase Strength of Delicate People 200 % in Ten Days

In many instances—Persons have suffered untold agony for years doctoring for nervous weakness, stomach, liver or kidney disease, some other ailment when their real trouble was lack of iron in the blood—How to tell.

New York, N. Y.—In a recent discourse Dr. E. Sauer, a Specialist who has studied widely both in this country and Europe, said: "If you were to make an accurate blood test on all people who are ill you would probably be greatly astonished at the exceedingly large number who lack iron in the blood. The moment iron is supplied all their multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living tissue and therefore nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. In many instances this continuous blood and nerve starvation, people become generally weakened, nervous and all run down and frequently develop all sorts of conditions. One is thin; another is burdened with unhealthy fat; some are so weak they can hardly walk; some think they have dyspepsia, kidney or liver trouble; some can't sleep at night, others are sleepy and tired all day; some fussy and irritable; some skinny and bloodless, but all lack physical action and endurance. In such cases it is worse than foolishness to take stimulating medicines or narcotic drugs, which only whip up your nervous system and make the following test. See how long you can work or how far you can walk without becoming tired.

Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous run down people who were ailing all the time double, and even triple their strength and endurance and entirely get rid of their symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form, and this, after they had in some cases been doctoring for months without obtaining any benefit. You can talk as you please about all the wonders wrought by new remedies, but when you come down to hard facts there is nothing like good old iron to put color in your cheeks and good sound, healthy flesh on your bones. It is also a great nerve and stomach strengthener and the best blood builder in the world. The only trouble was that the old forms of inorganic iron like tincture of iron, iron acetate, etc., often ruined people's teeth, upset their stomachs and were not assimilated and for these reasons they frequently did more harm than good. But with the discovery of the newer forms of organic iron all this has been overcome. Nuxated Iron, for example, is pleasant to take, does not injure the teeth and is almost immediately beneficial.

NOTE—The manufacturers of Nuxated Iron have such unbounded confidence in its potency that they authorize the prominent fact that they will forfeit \$100.00 to any Charitable Institution if they cannot take any man or woman under sixty who lacks iron and increase their strength 200 per cent or over in four weeks' time, provided they have no serious organic trouble. Also they will refund your money in any case in which Nuxated Iron does not at least double your strength in ten days' time. It is dispensed in this city by Rowley Drug Co. and all other druggists.

TO CONTROL DEBRIS OF PLACER MINING

WASHINGTON, Feb. 14.—A special study of the problems presented by hydraulic mining debris in relation to its effect on streams and agriculture has just been completed by the United States Geological Survey, according to an announcement by that branch of the public service. The investigation, which was conducted by Dr. Grove Karl Gilbert, was undertaken largely at the suggestion of the California Miners' Association. This organization drew the attention of government officials to the importance of making a study of the results of placer mining as early as 1905.

A natural consequence of placer mining is the washing away of the debris from which the gold dust is obtained. This debris passes down the streams used and is deposited in river bottoms or along the banks of streams. The distance which some of this debris travels is declared to be astonishing. For instance, it has been ascertained that some of the debris from the mining in the Sierra Nevada mountains has been washed into San Francisco bay. The Golden Gate bar has been increased appreciably by the waste material loosened and set in motion in the streams by placer mining.

The Geological Survey has come to the conclusion that the federal government should co-operate with state governments and with miners to control placer mining debris. The question is regarded as of especial importance in its relation to navigable streams. Tons of waste material loosened by placer mining are annually washed down stream by torrential rivers and deposited in the beds of rivers. Years of this sort of accelerated erosion results in the filling up of the beds of navigable streams, decreasing the value of them for transportation purposes.

Steps looking to the control of this debris are expected to be taken by the federal government in the future.

NEW SUGAR PROCESS INVENTED IN HAWAII

WASHINGTON, Feb. 14.—The Hawaiian sugar production will be increased 3 1/2 per cent if the new invention of J. N. S. Williams of the islands comes up to its present promises, according to a special report received by the department of commerce. The invention consists of machinery to recover approximately half of the 8 per cent of sucrose or unformed sugar which under present processes remains in the molasses.

Sugar manufacturers have long been working on schemes to prevent this waste of sugar, but the government report says that Williams' invention appears to be the first workable plan.

His invention also simplifies the whole method of producing sugar. Under his plan one operation takes the place of three as at present in recovering sugar. Williams has been experimenting two years on his new process. He worked on the theory that water prevented the elusive 8 per cent of sucrose from crystallizing. His process, therefore, begins with the boiling out of all the water from the final molasses. This done a centrifugal machine is used, running at extremely high speed. This separates the sucrose crystals.

ENGLAND'S PAUPERS DECREASED BY WAR

LONDON, Feb. 14.—Despite exceeding high prices of necessities, the number of paupers in England has steadily decreased since the war began. Social workers have collected evidence of the condition of the great mass of the people under war conditions. It all goes to prove that the lowest social strata, destitution, is gradually disappearing. Children requiring free school meals are the exception now. The Central Body of Unemployed has sold all the clothing on hand because there were not enough poor people to give it to. The benevolent found among those who pre-war time made up the pauper class doesn't mean that distress has disappeared. It is still found but mostly in the homes of women who drink.

DANIELS ADMITS HE CARRIED CALIFORNIA

WASHINGTON, Feb. 14.—Ordinarily there is no subject more dull than politics for the first six months of a year following a presidential election, but last November's election was so different from ordinary elections that the tradition has been altered and people are still eager to discuss the results, especially the part the west played.

A new theory of how President Wilson was able to carry the normally Republican state of California has been advanced by H. A. Brown of San Francisco, who is in Washington. He declares that Secretary of the Navy Daniels was responsible for the result.

"The secretary of the navy is some politician," said Brown. Brown points out that there had been some business depression in recent years on the Pacific coast and that many men were out of work. Secretary Daniels realized this situation and turned a good deal of the ship building ordinarily done for the government on the Atlantic coast to the Pacific. This put many men to work and the prosperity was reflected so that the entire situation was aided.

Brown points to the town of Vallejo as a typical example. This town, he says, is normally Republican by a large majority. This year, however, Vallejo gave Wilson a majority of 9000, which enabled him to carry the state. This vote was due entirely to the ship-building work which Daniels had given the Pacific coast, in Brown's opinion. The explanation is a brand new one here and is being accepted as plausible.

U. C. WIRELESS TOWER STIRS AESTHETIC IRE

CHICAGO, Feb. 14.—Can beauty and science dwell together? The question is agitating the University of Chicago. A few weeks ago the department of science started erecting the "greatest wireless station in the western world," to transmit messages 8000 miles. But when a giant pole was erected on Mitchell tower to connect antennae with a pole towering above the Ryerson laboratories the aesthetic cried that the sacred "battlement tower" of song and memory is being desecrated. Investigation was promised.

SWIMMERS BATTLE IN NEW YORK CONTEST

NEW YORK, Feb. 14.—The annual swimming races of the New York Athletic Club will take place tonight in the club's tank. A 220-yard and a 100-yard contest will be held, in addition to fancy high diving contests and a plunge for distance.

WOMEN OF MIDDLE AGE

Mrs. Quinn's Experience Ought to Help You Over the Critical Period.

Lowell, Mass.—"For the last three years I have been troubled with the Change of Life and the bad feelings common at that time. I was in a very nervous condition, with headaches and pain a good deal of the time so I was unfit to do my work. A friend asked me to try Lydia E. Pinkham's Vegetable Compound, which I did, and it has helped me in every way. I am not nearly so nervous, no headache or pain. I must say that Lydia E. Pinkham's Vegetable Compound is the best remedy any sick woman can take." —Mrs. MARGARET QUINN, Rear 257 Worthen St., Lowell, Mass.

Other warning symptoms are a sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness, inquietude, and dizziness.

If you need special advice, write to the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

Oil Cook Stoves and Ovens

See us for Puritan-Perfection or Princess Oil Cooks.

These are time-tried, satisfactory stoves which we recommend. Our line of ovens include the Bass-Perfection and Riverside, all guaranteed. We carry wicks for most any kind of stove.

Chloride Is Growing

The mining camp of Chloride, Arizona, is moving again. Ever since 1860 Chloride properties have produced from the grass roots down, and up to the present time the camp has returned over \$50,000,000. In the last few years it has been demonstrated that the ore values not only go to a great depth but have increased as they go down. Present reports show that the District produced over \$3,000,000 last year, and this production is from a strip two miles wide and no longer than from Santa Ana to Huntington Beach. Judging from the present activity of the camp it is expected that the production will be increased to \$20,000,000 or over this year. The Hughes Arizona Copper Company's properties are located in the heart of this district. In their 360 foot tunnel they have ore values running \$139 to the ton, and an early production is expected.

Santa Ana.

H. M. PARSONS & CO.,
332 I. W. Hellman Bldg.,
Los Angeles.

RUB YOUR EYES

and get a clear vision of the possibilities of Fruit and Nut growing without irrigation in the Tempe-Paso Robles district—a swell place for a home—money making opportunities undreamed of a few years back, a combination of desirable conditions possessed by no other locality in the state, these are reasons why so many men from Orange county and other Southern California points are investing there.

10 acre lots, best orchard zone, near town, fine soil for almonds, walnuts, pears or prunes—all money makers—\$300.00 to \$175.00 per acre.

10 acre lots, young orchards just coming into bearing, \$300.00 to \$400.00 per acre.

Here are two good ones, combinations suitable for dairying, hog raising and fruit growing, 1/2 mile from high school.

30 acres, 1/2 in alfalfa, 1/2 in fine pear, prune or walnut land, \$200.00 per acre.

43 acres adjoining and in the same combination and price, the alfalfa land owns electric pumping plant and modern cement pipe line system.

Ask me for further information about property there.

J. A. Timmons

2220 N. Main St. Phone 644-J.

I WANT TO REPAIR THAT WATCH

I'll tell you what kind of time it will keep after it's repaired and then I'll make it do it.

Buckeye 2.70

Philadelphia Market
PHILADELPHIA, Feb. 13.—One car sold. Market unchanged.

Boston Market
BOSTON, Feb. 13.—Five cars sold. Market easier.

NAVELS
Royal Knight, R.H. Ex. \$2.40
Whittier, S.T. Ex. 1.90

Los Angeles Produce Market
Dry-bean prices continue to advance and both kinds of white beans are now bringing \$12.50 a hundred weight, while Garvanzas have been boosted to \$6.50 and the tepary variety to \$7.50. Limas have seldom sold for as much as 9 1/2 cents a pound wholesale and pinks at 8 1/2 cents per pound almost establish a new record.

Vegetable quotations remain firm for most varieties with several advances noticed yesterday. Thus celery of the better grade is now selling for \$5.50 to \$6 a crate or \$1 to \$1.25 a dozen. Eggplant is bringing 18 to 20 cents a pound and dealers report that they are receiving more orders for this popular vegetable than they can possibly supply. Bell peppers at 35 to 40 cents a pound are in the nature of a luxury. They are very scarce and this is the reason for the present exorbitant price asked for them. Root vegetables are due for another boost within the next few days, as stocks are low and demand is actually increasing.

Eggs were very active at yesterday morning's session of the Produce Exchange and both case count and pullets dropped down a fraction. Fresh eggs held firm at 31 cents a dozen but case count climbed at 28 cents and pullets at 27 1/2.

(Corrected daily by telephone from Los Angeles)

BUTTER—California creamery extras, 37 1/2; creamery firsts, 34c. These prices represent prices added to jobbers' prices to producers.

EGGS—Pullets—Case count, 29c; extra, 31c. Quotations on eggs—case count basic, indicate jobbers' and wholesalers' prices to producers. Quotations on candied and selected stock are prices to the trade.

POULTRY (Buying Prices)—Broilers, 30c; fryers, 27c; light, 25c; heavy, 19c; heavy hens, 21c; stages and old roosters, 12c; young ducks, 22c; young geese, 18c; young turkeys, 29c; tom turkeys, 30c.

MISCELLANEOUS FRUITS—Bananas, lb., 4 1/2; pineapples, 7c lb.; \$4.50 crate; strawberries, 10c; grapes, 12c; apples, 12c; Bellefonte, 17c; 3 1/2 tier, 15c; 4 tier, 15c; Spitzenberg, 15c; 5 tier, 15c; yellow Newton, 15c; LECTURE GIVEN ON CHRISTIAN SCIENCE

Bicknell Young, C. S. B.,
Speaks to Big Audience at
Grand Opera House

The Grand Opera House was crowded last night by an audience that heard a lecture on Christian Science delivered by Bicknell Young, C. S. B., member of the board of lectureship of the Mother Church, the First Church of Christ, Scientist, at Boston, Mass.

In introducing the speaker, Dr. W. A. Flood said:

"All humanity is seeking, in every conceivable manner, a solution of their individual problems. Christian Science offers a solution. It shows that God is the only Cause and Creator of all that is real and that the only effect of this Cause is that of good. It furnishes a working basis or understanding by which we may begin at once to empty our consciousness of fear, sin, and ignorance, to destroy the false and give place to the true.

"In order to present Christian Science to you in its correct light, a Board of Lectureship has been established, comprised of those best qualified to extend to you this knowledge."

A report of the address of the evening by Bicknell Young follows:

The Address

"Life necessarily includes the phenomena of Life in all its aspects. Christian Science being the Science of Life, nothing divine or human is ignored by its teachings, but on the contrary a proper and adequate provision is made for the observation, classification and disposal of all phenomena and experiences.

"All systems of philosophy and religion practically agree that effects could not exist without a cause. Christian Science agrees with many of them as to the nature of cause, though even in this respect it is far more practical than they, but disagrees with them all as to the nature of all so-called effects. They on the one hand declare with Christian Science that cause must be infinite and eternal, and at the same time they teach that all seeming effects, however material, destructible or destructive, must have their source in the same infinite Cause.

"Christian Science shows that such conclusions are logically incorrect. It establishes the incontrovertible fact that there are true and permanent phenomena in the universe, and by means of them, when understood, it reveals divine Principle, which conclusively enables one to first recognize and then step by step dispose of phenomena which are not permanent, and which consequently, in the last analysis, are not true.

"That you and I can think—that we are thinking at the present moment, involves the primary fact that intelligence exists. It is self-evident also that our capacity to think is not a personal thing. Every human being has possessed it in some degree, and even the higher order of animals appear to have a measure of it, yet intelligence never belonged exclusively to any particular man or woman or race or creature. The history of hu-

manity shows it to be something more than a limited possession. It is an universal heritage.

"Intelligence is both a prerequisite and concomitant of all legitimate scientific and Christian endeavor. Its nature is unquestionably infinite, therefore primarily divine. In view of this fact how utterly unreasonable to dissociate God from science. Consequently, Christian Scientists, though ardent Christians, are not less, but more scientific than other scientists. When asked how Christian Science heals, they can truthfully answer, through intelligence, and they can reasonably ask in their turn, is there any other way of doing anything correctly?

Divine Intelligence

"Divine Intelligence is conceivable only as Spirit, omnipotence, omniscience, omnipresence. It is inconceivable therefore that divine intelligence, Spirit, could not do anything directly that needs to be done, and consequently not conceivable that it could or would provide some indirect means for healing the sick.

"Theories predicated upon the necessity for material remedies or methods in healing are wanting in reason and logic. Now observe that the method of Christian Science is diametrically opposite to them. It illustrates the scientific ideal; for even in the mechanical world there has always been the hope that some time or other power would become available by direct means and without waste of energy or loss in transmission. This idea has never been applied to the healing of the sick or the regeneration of mankind until the advent of Christian Science. In this practice alone we have it applied, and the ideal practically realized and illustrated.

"The power which heals disease in Christian Science is the divine Mind. It is available only as Mind. While the ordinary physician says that he believes in the intelligent use of drugs or other material remedies, we say and prove that we know how to rely upon divine intelligence itself. Where is the real thinker who can doubt that the latter system is far more scientific than the former?

"The Discoverer and Founder of Christian Science was the greatest of all modern thinkers along purely metaphysical and strictly philosophical lines. She was not only clear, but fearlessly consistent. When other thinkers came face to face with the conflict between the ideals of life which point to the spiritual facts of being, and the material every-day experiences which conflict with such ideals, they yielded their ideals to the evidence of the material senses. In the light of pure reason it is not strange that, swayed by such inconsistency, they evolved contradictory theories of religion and philosophy.

"Mary Baker Eddy, on the other hand, saw that spiritual facts, though contrary to the evidence of the material senses, and though humanly idealistic, relate most nearly to the basic Principle and boundless Power which men call God. Consequently her scientific system of healing disease and overcoming sin requires that divine facts when discerned shall be maintained even in the face of any and all material evidence that appears to be contrary to them. This method is in accordance with the methods of the greatest investigators of the world, although it was never adopted by metaphysicians or philosophers prior to her time. By means of this method, original with her, divine metaphysics became a practical science."

A potato flour factory recently opened at Stockton, Cal., is the first factory of that nature on the Pacific coast.

HAWAII

By W. H. THOMAS

HOBNOBBING WITH KAMAAINA

Our trip around the Island of Oahu, was one grand round of pleasure and surprises. We had no inkling of what was in store for us. Sheriff Rose, that aggressive, positive, yet most affable and amiable of peace officers, had succeeded so well in concealing all his plans that we were simply presented with one surprise after another.

On this trip one starts out directly toward the renowned "Pali" of Oahu. We had always supposed that Pali was the name of some mountain peak on this island, which on our trip around the island we would have to pass. Instead "Pali" means cliff. As we recall now, to reach this Pali we drove our machines about six miles up Nuuanu Valley. The plain, or more properly speaking, the location of Honolulu, is on the seashore, and at that end the Nuuanu Valley is wide. As the Pali is approached the valley narrows until it is a real "narrow defile" of only about 150 to 200 feet in width.

Though quiet and balmy until one reaches this gap in the mountain, here the wind almost always, as we were informed, is blowing a gale from the windward side of the island. Shortly after passing the gap at the Pali and going down the other side of the range the tempest is gone, and all is as serene as though the Maker had said "Peace be still." Could the wind which is on the job at the Pali be transported to North Dakota, we believe it would be a good thing for a few of the residents of that commonwealth, with whom we are acquainted. In this, that we have faith that it might blow some of the mortgages which have been on some of the farms so long a time "that man's mind runneth not to the contrary."

Up this valley and to this point, we are told, Kamehameha I, conqueror of all of the Hawaiian group, drove the army of Oahu and over this cliff went literally thousands of the Oahu army to their certain death, as there is a sheer drop of hundreds of feet here, 1,200 feet above sea level, with mountains 3,500 feet on either side. This is indeed a most wonderful and awe-inspiring view that is presented to one from this point.

After passing this narrow defile we then traveled for many miles a zigzag journey along the mountainside until we reached the plain below. Our landscape—a combination of land and sea—was kaleidoscopic and always magnificent. Directly before us at one moment was 2100 miles of the old Pacific ocean, at another were fields of taro—a vegetable used in the islands, we were informed, as a substitute for our potato—and wide stretches of pineapple fields at another time, and again we would be feasting on sugarcane fields, and apparently instantly all this would vanish as the road brought us face to face with the mountain looking back over the same road traversed by us only a few minutes before.

During the day we came to three "court houses." At each of these we found the District Judges, as they call the Justices of the Peace there, constable and deputy sheriff, all in readiness to make the visit of the California Judge pleasant. This they certainly did. No one could possibly be treated better than were we by these splendid men. Always and everywhere the same hospitality, the same kindly and courteous treatment that

never failed to carry home a conviction that they really were glad to have us call, and by so doing give them an opportunity to entertain us.

We are not unmindful of the fact that we have in this series of articles mentioned this trait frequently, but these good people deserve all that we have said. Our only regret is that we have not the power to say it louder and to more people.

At about two o'clock in the afternoon we arrived at the home of Mr. Lauhiwa, one of Sheriff Rose's deputies, at a little place called Laie, where, according to Sheriff Rose's plans we were to eat, and confidentially our stomach had been asking us for a long time where our backbone was. We were indeed very hungry, but had never even mentioned such thing to the Sheriff, who is himself, as the reader will have already divined, a most royal entertainer, and like ourselves something of a kodak fiend.

There was method in his apparent madness, as he gave us a long ride and purposely altered for the meal at this time that we might be "good and hungry." His plan was carried out and the result became a colossal and most crowning success. Here it had been arranged for us to have our first "luna" as the Hawaiians call a barbecue, as we were informed. Mr. Lauhiwa had killed a young pig. This then had been dressed in the most exacting style by a master hand at that business, wrapped up as a whole in ti leaves, and then laid in a bed of hot porous stones placed in the ground. These stones previously had been heated to the proper degree, so that when the pig was placed therein and these stones were placed entirely around and over it, no fire was near it at any point. When the cooking thus of the pig had been finished—and it was ready to be taken up upon our arrival—we were pleased to be able to witness the operations transferring it from its torrid surroundings to the table of our host. As it was taken up it fell apart literally, so well and so nicely had the cooking been done.

Finally the time came for us all to take our previously appointed place at the table, Sheriff Rose being assigned the place at the head of the table and we at his right. O, you Californians! If you only knew the delicious cooking of Mrs. Lauhiwa, those of you who have never been in the Hawaiian Islands would want to make the trip if for no other reason than to taste this good Hawaiian woman's cooking. Here we had dished out to us the most delicious and appetizing of everything. Pig roasted whole, as stated above. Roast beef, Chicken prepared in a way intended to tempt the appetite and to satisfy the most exacting epicurean taste. Potatoes and gravy that would certainly please the Rev. J. A. Stevenson, D. D. of this city. The reader may not know it, but Dr. Stevenson is a great believer in the saving efficiency of good beef, potatoes and gravy. We have heard him say that a man can stand more hard work, if fed on these than if fed on the choicest ice cream. We are inclined to believe him right in his conclusions.

The cakes and pies were all made by the wife of our host, and certainly could not be excelled by the most experienced chef. They were simply delicious. O, yes, we nearly forgot to say that we had here our first taste of poi. Of course the reader has heard of the Hawaiian poi. We were informed that it is the national food. This food is made from the root of the taro, ground, mixed into a paste and allowed to ferment. The Hawaiians are passionately fond of it. It was served to us in a bowl. It looks like gruel, only instead of being white it is almost black. The Hawaiians eat this, not from a fork or a spoon, but from the fingers. This to us seemed very strange.

There are three kinds of poi—the one-fingered poi, the two-fingered poi and the three-fingered poi. The first is the poi cooked to a stiffness that it can readily be conveyed from the bowl to the mouth by the use of the forefinger only; the next is not quite so stiff, and two fingers are necessary to do the act properly; while in the case of the third it is so soft that three fingers must be used to keep it from falling onto the table instead of getting into the mouth. A strict adherence to the truth compels us to admit that as yet we have not acquired that passionately fond taste for this world famous dish.

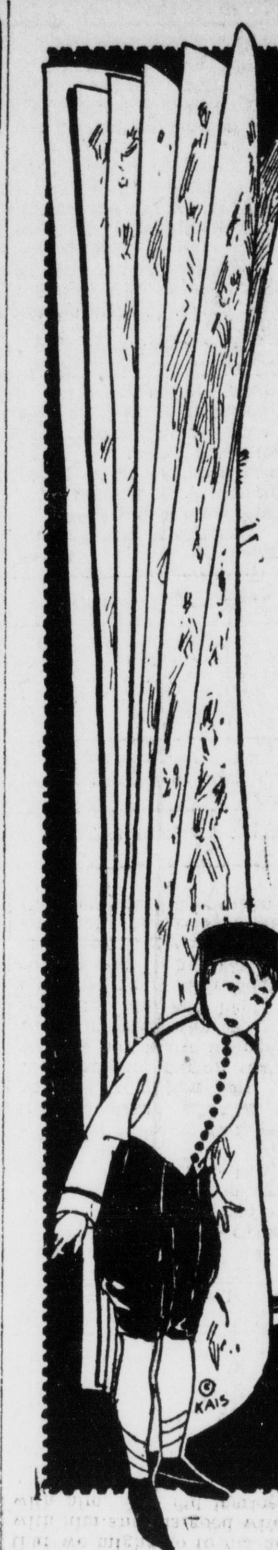

Taking it all in all it was one of the most enjoyable meals we had ever eaten and the time will never come when we shall not feel under obligations to Mr. and Mrs. Lauhiwa, who treated us so royally and who evidently felt that this was decidedly a gala day, a great event—this visit to them of the California Judge.

This chapter would not be complete were we to fail to mention little Joe Lauhiwa—the only child of our host and his good wife. He was about seven or eight years of age, and a most likeable child. Little Joe and myself became mighty good friends before we left. He told us of his playthings, his attendance at school, his playmates, etc., and inquired if we had any little children, and upon being advised that we had three, ranging in ages from ten to six years, his little face shown with delight, and he said how he wished he might play with them. Before leaving we gave him a "quarter," and we would not have missed that pleasure of little Joe for a good deal. We hope for him a long, happy and useful life.

Here, too, is the Hawaiian Mormon settlement. This denomination is at this time building a splendid temple which it is expected will cost about one hundred thousand dollars.

After this splendid meal, and as is always the case, we had to take leave of our amiable and courteous hosts, and after sincere Alohas we started out for the last lap of the trip back to Honolulu. We traveled by the great Marconi wireless station, one of the greatest in the world, the Boys Industrial School, Wallau District Court House, and some of the grandest surf that we have ever seen.

We arrived at the Pleasanton Hotel in time for dinner, after one of the most delightful experiences—a day of succession of surprises—thanks to

The Little Wonder Says:

Every day I accomplish something worth while for somebody. Do you notice what nice things folks say about my ability?

A few days ago S. M. Dungan, 602 South Main, lost a valuable watch. Through me he told folks about his loss. I put him in touch with the man who found it and the watch was returned to him next day.

Another man needed a situation. The very next day I put him in touch with a big firm.

Now if you need me for any of the following "Wants," just phone the Register, Pacific 4, Home 409.

I'm at your service.

our good-natured, big-hearted and hospitable hosts, Sheriff Chas. B. Rose and High Sheriff Wm. P. Jarrett, of each of whom we most sincerely say: "To know that we've a friend like you puts in each rose a bit more dew. More high delight in each bird's thrill."

More red above the sunset hill.
It tints the bluest sky more blue
To know that we've a friend like you!

We did not take dinner at the Pleasanton. Instead a Mr. Anderson, an old friend of our old friends and fellow citizens, Mr. and Mrs. P. L. Tople, was there awaiting our arrival that we might go to his home to dine with him and his good wife. We went with him. We did justice to the dinner, as we had an appetite, notwithstanding the luau just described, that we have no doubt Mr. John D. Rockefeller would give a million dollars for. We had the appetite and everything that goes with it.—Mr. and Mrs. Anderson being full blooded Scotch people and imported Scotch at that, we could on this occasion at least honestly and sincerely offer Bobby Burns' prayer, when he said:

"Some hae meat and canna eat,
And some wad eat what they want;
But we hae meat and we can eat,
So let the Lord be thankit."

Mrs. Anderson had just returned from Scotland after a three years' absence from Honolulu. She was on the Matsonia during our voyage, but we did not know it until now. She, with her little son, were fellow passengers. She had been detained for over two years on account of the European war. She related some interesting experiences on the other side, and many pathetic scenes because of the Hell that had broken loose in Europe.

Mr. Anderson related many pleasant times with the Tople, and gave us some idea of the many changes and the wonderful development of Honolulu during his residence there, covering a period of eighteen years. Both Mr. Anderson and myself having been born on the same island, we were indeed congenial spirits. Mr. Anderson is much interested in the Y. M. C. A. in Honolulu. Fortunate indeed is the Association.

We are grateful to Mr. and Mrs. Robert Anderson, these big-hearted, whole-souled people, for their contribution toward our pleasure while a sojourner in their city. We fear that we tarried too long. The congeniality was so contagious that we simply could not help it. As it was we tarried so long that it may be truly said that we talked and visited until the Past almost transformed itself into the Present, and Yesterday became Today.

NO HEADACHE OR NEURALGIA PAIN

Get a 10 cent package of Dr. James' Headache Powders and don't suffer.

When your head aches you simply must have relief or you will go wild. It's needless to suffer when you can take a remedy like Dr. James' Headache Powders and relieve the pain and neuralgia at once. Send someone to the drug store now for a dime package of Dr. James' Headache Powders. Don't suffer! In a few moments you will feel fine—headache gone—no more neuralgia pain.

Little Talks on 'Rules for Success'

Here's the Point

Men who have things are men who appreciate the importance of affiliating themselves with a good bank. A bank affiliation is indispensable.

It assures others that you understand the importance of employment business principles in your every day transactions.

Associate yourself with the Farmers & Merchants National Bank and the Home Savings Bank of Santa Ana, whose mission is to build up the community by aiding the men in it.
